Creation vs. Evolution On November 24, 1859, a man named Charles Darwin started a controversy that has lasted to present day. His work, entitled "Origin of Species", stated the possibility that humans were not created but evolved from natural processes.

Creation vs Evolution Essay - 2019 Words - StudyMode  
The former unity fractured into evolutionists, who believed life as we see it today developed from smaller and more primitive organisms, and creationists, who kept believing life in all its diversity was created by a higher entity.

## Creation Vs Evolution Essay Research

Mostly, scientists use Darwin theory of evolution (Darwinism) to support their theories that man evolved from ape-man. Ape-man is the most common ancestor to use humans. On the other hand, most religious faiths support the idea of creationism. Creationism is the theory that humans were created in the hands of God.

## Creationism vs. Evolution - EssayBishops

Evolution is a theory proposed by scientists to explain the origin of all species. Because both explanations are theories, neither can be proven right or wrong. To make a decision on which theory is correct, people must choose either religion or science. The first theory about the origin of man is called creationism.

of evolution by saying that the Big Bang is merely a theory. The only reply that the scientific world can refute this with is the fact that relativity and gravity, are also theories. This argument by creationists is obviously not in their favor. The creation of the universe by scientific means is a world-wide theory that many creationists

## Creation vs. Evolution Persuasive Essay - Pros & Cons Example

The debate over evolution vs. creation will go on, nevertheless, there is overwhelming evidence pointing to the creation and falsifying the evolution theory. Historically, people tried to understand which theory is more trustworthy; there have been several cases in courts, numerous movements favoring each side, however, the answer is yet to come. Currently, creation theory has more factual background compared to the evolution. Works Cited. Aguilard v.
