This volume explores the instructional use of creative writing in secondary and post-secondary contexts to enhance students’ language proficiency and expression in English as a second or foreign language (ESL/EFL). Offering a diverse range of perspectives from scholars and practitioners involved in English language teaching (ELT) globally, International Perspectives on Creative Writing in Second Language Education tackles foundational questions around why fiction and creative writing have been traditionally omitted from ESL and EFL curricula. By drawing on empirical research and first-hand experience, contributors showcase a range of creative genres including autobiography, scriptwriting, poetry, and e-Portfolios, and provide new insight into the benefits of second language creative writing for learners’ language proficiency, emotional expression, and identity development. The volume makes a unique contribution to the field of second language writing by highlighting the breadth of second language users throughout the world, and foregrounding links between identity, learning, and ESL/EFL writing. This insightful volume will be of particular interest to postgraduate students, researchers, and academics in the fields of ESL/EFL learning, composition studies, and second language acquisition (SLA). Those with a focus on the use of creative writing in classrooms more broadly, will also find the book of interest. "I don't know what to write about!" is the common response when kids are asked to indulge in creative writing. This lively collection of unique writing activities will quiet that complaint forever! The 101 fun and functional creative writing activities in this book were designed to stimulate the interest and creativity of children. The author's philosophy, "if it's fun, kids will do it," is obvious in such whimsical ideas as having students write 10 ways to complete the sentence: "If I were a ____, I would ____" or challenging them to write home remedies for the common cold, a headache, sibling rivalry, homework overload, etc. These writing activities encourage kids to write about what they know best - themselves - and turn writing practice into a time of self-expression. Students will find pleasure in the writing process using these ideas.

Doing Creative Writing Independently Published

The award-winning novel of a young American girl in France—hailed as “ an impressive debut ” that is “ written with quiet, lyric forcefulness ” (Elle). A New York Times Notable Book Young, inexperienced, and fleeing a terrible personal loss, Rosie—the new au pair to the Tivot family estate in France—finds herself ill at ease when trying to connect with Nicole, the cool, distant, and beautifully polished mother of the three children she cares for. There is something about the woman that both fascinates and unnerves Rosie. The same is true of the rest of the Tivot clan. Nicole ’ s dissatisfied husband, Marc, and their children all seem to be caught in an unending struggle against each other for love and acceptance. Only when Rosie is sent to care for Nicole ’ s now-elderly guardian—the storyteller of the family ’ s secrets—does she finally discover the truth. There, Rosie will learn of a past darkened by war, duplicity, and a tragedy that still resonates in the Tivot ’ s lives . . . With this novel of family, betrayal, and the na ï vet é of youth, Lily King has spun a story that is “ powerful . . . splendid . . . [and all] so assured that it ’ s hard to believe the book itself is her debut ” (The New York Times Book Review). “ Expertly constructed, full of surprises, superbly paced and sweetly sad, King ’ s book hardly reads like a first novel. ” —Publishers Weekly

This book explores creative writing and its various relationships to education through a number of short, evocative chapters written by key players in the field. At times controversial, the book presents issues, ideas and pedagogic practices related to creative writing in and around education, with a focus on higher education. The volume aims to give the reader a sense of contemporary thinking and to provide some alternative points of view, offering examples of how those involved feel about the relationship between creative writing and education. Many of the contributors play notable roles in national and international organizations concerned with creative writing and education. The book also includes a Foreword by Philip Gross, who won the 2009 TS Eliot Prize for poetry.
