Meister Eckhart New World Library
"We live in a time of enormous and radical change. As old structures fall away -- structures built on the separateness of all human activity -- new ideas emerge: about ourselves, our interrelatedness to one another, to the cosmos, to all matter. New values emerge from these awarenesses which are building blocks to leading new lives and transforming society. The author shows that the key to understanding this basic paradigm shift is for each of us to tap into our creative potential. Many mental and emotional blocks stand in our way, and in a most informative manner, she offers tips on helping the creatively blocked person explore his or her deepest resources. Most significantly, she shows the essential link between creative acts and spiritual acts. Both are healing acts, acts of power; both are experienced in the body and by the body, whether in song, dance, pottery, painting, or meditation. The way of the artist and the mystic are one. By rediscovering ourselves, our oldest traditions, and our newest cosmological discoveries, we can once again unite art, science and religion, thereby fusing the periods of the pre- and post-Enlightenment in today's emerging new order." Prayer was written by Fox when he was a radical young priest fresh from the experience of the sixties and Vatican II. Originally published in 1972, it is one of the first works to herald the revolution of liberal theology that was just beginning to sweep the nation. Originally published under the title On Becoming a Musical, Mystical Bear: Spirituality American Style, the book now has a more accessible title and appearance and is as vital today as when it first appeared.

Creative Ideas is just as inspirational and insightful today as when it was first published over 30 years ago. Those familiar with Ernest Holmes' writings and the Science of Mind principles that he espoused will enjoy the long anticipated reunion with some of their favorite passages; those who are new to them will delight in the discovery of these classics of New Thought. All readers will find Holmes' meditations to be practical, insightful, and more than satisfying food for the hungry soul. Jean Houston, PhD: "Ernest Holmes was one of the first to direct us to what is to be found in the vast ecology of inner space . . . He shows us how to be active and creative citizens in a Universe and Inniverse richer than all previous imaginings."

It is no secret that men are in trouble today. From war to ecological collapse, most of the world’s critical problems stem from a distorted masculinity out of control. Yet our culture rewards the very dysfunctions responsible for those problems. To Matthew Fox, our crucial task is to open our minds to a deeper understanding of the healthy masculine than we receive from our media, culture, and religions. Popular religion forces the punitive imagery of fundamentalism on us, pushing most men away from their natural yearning for spirituality and toward intolerance and domination. Meanwhile, many men, particularly young men, are looking for images of healthy masculinity to emulate and finding nothing. To awaken what Fox calls “the sacred masculine,” he unearths ten metaphors, or archetypes, ranging from the Green Man, an ancient pagan symbol of our fundamental relationship with nature, to the Grandfatherly Heart to the Spiritual Warrior. He explores archetypes of sacred marriage, showing how partnership becomes the ultimate expression of healthy masculinity. By stirring our natural yearning for healthy spirituality, Fox argues, these timeless archetypes can inspire men to pursue their higher calling to reinvent the world.

The author of Original Blessing explores how the highest communion with the Divine can be found right at our fingertips in the simplest expressions of human creativity. Drawn from a sermon that has electrified listeners, here is a concise, powerful meditation on the nature of creativity from Episcopal priest and radical theologian Matthew Fox. Creativity is Fox at his most dynamic: It is immensely practical and leaves the reader with a message to put into action in life. Fox tantalizingly suggests that the most prayerful, most spiritually powerful act a person can undertake is to create, at his or her own level, with a consciousness of the place from which that gift arises.

Most people tend to idealize artists, writers, and others of the “creative class” as uniquely gifted. But the capacity to create is part of being human--whether that means writing, making art, cooking, gardening, sewing, dancing, acting, singing, or virtually any activity. In Chi and Creativity, Kaleo Ching and Elise Dirlam Ching show readers how to use a wide range of strategies to harness the energy of chi to uncover, and cultivate, that often elusive inner artist. Based on their popular workshops, the authors offer an integrative process to generate the joy, wonder, and sense of well-being necessary for artistic self-expression. Specific exercises draw on everything from acupressure and breathing techniques to Chi Kung movement and meditation. Through Chi Awareness, the body, mind, emotions, and spirit come into greater harmony. Through guided imagery, they dialogue. Through journaling, they speak. Through art, they join in creative expression of the inner discoveries along the path to greater balance and integration. Chi and Creativity is the authors’ way of sharing this magical transformative process and can be used by anyone who wants to add fuel to their creative fires.

Raising My Rainbow is Lori Duron’s frank, heartfelt, and brutally funny account of her and her family's adventures of distress and happiness raising a gender-creative son. Whereas her older son, Chase, is a Lego-loving, sports-playing boy's boy, Lori's younger son, C.J., would much rather twirl around in a pink sparkly tutu, with a Disney Princess in each hand while singing Lady Gaga's "Paparazzi." C.J. is gender variant or gender nonconforming, whichever you prefer. Whatever the term, Lori has a boy who likes girl stuff—really likes girl stuff. He floats on the gender-variation spectrum from super-macho-masculine on the left all the way to super-girly-feminine on the right. He's not all pink and not all blue. He's a muddled mess or a rainbow creation. Lori and her family choose to see the rainbow. Written in Lori's uniquely witty and warm voice and launched by her incredibly popular blog of the same name, Raising My Rainbow is the unforgettable story of her wonderful family as they navigate the often challenging but never dull privilege of raising a slightly effeminate, possibly gay, totally fabulous son. The Reinvention of Work New World Library
We have been considering the essence of Aquinas' teachings about our spiritual journey toward wisdom and justice and compassion and away from dullness and indifference and, in his words, folly. He says: "Folly implies apathy in the heart and dullness in the senses...For sapiens (wise) as Isidore says 'is so named from sapor (savor), because just as the taste is quick to distinguish between savors of meats, so too a wise person is quick in discerning things and causes.' Thus it is clear that folly is opposed to wisdom as its contrary...the fool has the sense, though dulled, whereas the wise person has the sense acute and penetrating."

Talking on the Water Trinity University Press
In The Reinvention of Work, radical priest Matthew Fox draws on a rich legacy of great mystics and philosophers and proposes a spirituality of work. As Thomas Aquinas said, "To live well is to work well," and in this bold call for the revitalization of daily work, Fox shares his vision of a world where our personal and professional lives are celebrated in harmony--a world where the self is not sacrificed for a job but is sanctified by authentic "soul work."
