Third Series BoD - Books on Demand

The founding principles of traditional Karate, and this is particularly so for all students of Tetsute Do Karate,

is the development of self-knowledge, self-discipline, humility and an indomitable spirit. We must develop self-knowledge to understand what our strengths and weaknesses are, the self-discipline to practise those things that need improvement, the humility to understand that we are not perfect and an indomitable spirit to keep us going when everything seems just too hard.

Introducing a new voice in vegetarian cooking. Packed with 1,000 recipes that are seductive, sexy, and utterly delicious, **Passionate Vegetarian** covers all the bases of meatless cooking,

from east (Stir Fry of Asparagus with Black Bean-Ginger Sauce), west (Talk of the Town Barbecued Tofu), from the Mediterranean (Swiss Chard with Raisins, Onions & Olives) to the American South (Black-Eyed Pea Ragovt). You'll find lush lasagnas; plump pierogies; bountiful burgers, beans, and breads; pleasing pasta and pies. You'll spoon up soups and stews, and delight in desserts from simple to swoonworthy. Written by longtime vegetarian Crescent Dragonwagon, author of Dairy Hollow House Soup & Bread Cookbook, Passionate Vegetarian employs innovative methods (try "Risort-ofs," in which risotto technique is used to create splendid, richly flavored grain dishes built around not just rice but also barley, buckwheat, spelt, and even toasted oats with an array of seasonings) and introduces lesser-known ingredients (get to know and love not just tofu and tempeh but a whole new generation of soyfoods, as well as "Quick Fixes" like instant bean flakes).

Opinionated, passionate, and deeply personal, Ms. Dragonwagon's tantalizing headnotes will have readers rushing to the kitchen to start cooking. (Can her over-the-top Garlic Spaghetti really be that good? It is.) Whether you're a committed vegetarian, a dedicated vegan (most recipes offer low-fat and vegan options), or a food-loving omnivore in search of something new and wonderful, this is not just vegetarian cooking--but cooking, period--at its most creative, inspiring, and exuberant.

Problems in Breast Surgery: A Repair Manual is destined to become a valued part of every plastic surgeon and breast surgeon ' s library. This unique book provides a virtual lifeline for addressing the challenges encountered in aesthetic and reconstructive breast surgery and avoiding possible problems and complications. This is not a traditional technique-oriented textbook; rather, it has a problem focus and provides different solutions for solving complex problems associated with secondary breast surgery. The book begins with chapters on the basic principles of corrective breast surgery and the key anatomic factors and mechanisms of failure that are key to accurate analysis. With this foundation in place, it proceeds to address the spectrum of potential problems that can occur with each of the different procedures, ranging from breast augmentation, reduction, and mastopexy to breast and nipple-areola reconstruction. Each

chapter is introduced with a specific problem presented by Drs. Fisher and Handel. Then the second portion of the chapter features a variety of solutions from different experts for treating the problem. These experts provide case examples of similar problems with a step-by-step explanation of how they solved these problems and why they took the approach that they used. The book covers both aesthetic and reconstructive breast surgery. The goal of this text is not to judge which solution is the best (that decision is left to the reader). Rather, it is designed to provide a detailed road map explaining how to move from point A, the problem, to point B, the solution. Beautifully Illustrated Dramatic color illustrations and numerous preoperative, intraoperative, and postoperative images help readers visualize the steps of each operative solution. Unique Features This book ' s approach is unique and should be of great educational value to surgeons—both residents and practitioners—in solving challenging problems and

complications. Even more important, it will help them avoid problems and complications in future cases.

Instruction Manual Fodor's Travel

Contending that nearly all horse behavior problems result from incorrect or inconsistent training,

this work highlights the potential behind the world ' s promising equine model citizens and partners. The guide emphasizes systematic reconditioning while encouraging patience and proper skills in riders, providing a comprehensive plan for addressing issues such as bucking, bolting, rearing, spooking, lack of confidence, jumping issues, and more. Featuring a clear, accessible outline, this is the definitive solution to implementing consistent training methods, allowing riders to take full advantage of their horses ' unrealized abilities. Suggestions for starting young horses, detailed case studies, and strategies for future success are also included.
