### No Equal Justice The New Press

A revelatory account of the misdemeanor machine that unjustly brands millions of Americans as criminals Punishment Without Crime offers an urgent new interpretation of inequality and injustice in America by examining the paradigmatic American offense: the lowly misdemeanor. Based on extensive original research, legal scholar Alexandra Natapoff reveals the inner workings of a massive petty offense system that produces over 13 million cases each year. People arrested for minor crimes are swept through courts where defendants often lack lawyers, judges process cases in mere minutes, and nearly everyone pleads guilty. This misdemeanor machine starts punishing people long before they are convicted; it punishes the innocent; and it punishes conduct that never should have been a crime. As a result, vast numbers of Americans -- most of them poor and people of color -- are stigmatized as criminals, impoverished through fines and fees, and stripped of drivers' licenses, jobs, and housing. For too long, misdemeanors have been ignored. But they are crucial to understanding our punitive criminal system and our widening economic and racial divides. A Publishers Weekly Best Book of 2018

### The American System of Criminal Justice Cengage Learning

This multi-disciplinary collection brings together original contributions to present the best of current thinking about the nature and place of remorse in the context of criminal justice. Despite the widespread and long-standing nature of interest in offender remorse, the topic has until recently been peripheral in academic studies. The authors are scholars from North America, the United Kingdom, Europe, South Africa and Australia, from diverse academic disciplines. They reflect on the role of remorse in law, for better or for worse; on how expressions of remorse are affected by the legal contexts in which they arise; and on the impact of these expressions on the individual, the court and the community. The work is divided into four parts – Part I Judging Remorse addresses issues concerning the task of assessing remorse in the courtroom, usually prior to determining sentence. Part II Remorse Beyond the Courtroom explores the place and significance of remorse in various post-court settings. Part III Remorse, War and Social Trauma addresses remorse in the context of political violence and social trauma in the former Yugoslavia and South Africa. Finally, Part IV Reflections seeks to underscore the multi-disciplinary and interdisciplinary nature of the collection as a whole, through personal and disciplinary reflections on remorse. The work provides a showcase for how diverse academic disciplines can be brought together through a focus on a common topic. As such, the collection will become a standard reference work for further research across a range of disciplines and promote inter-disciplinary dialogue.

### Pleading Out Wadsworth Publishing Company

In recent years, America's criminal justice system has become the subject of an increasingly urgent debate. Critics have assailed the rise of mass incarceration, emphasizing its disproportionate impact on people of color. As James Forman, Jr., points out, however, the war on crime that began in the 1970s was supported by many African American leaders in the nation's urban centers. In Locking Up Our Own, he seeks to understand why. Forman shows us that the first substantial cohort of black mayors, judges, and police chiefs took office amid a surge in crime and drug addiction. Many prominent black officials, including Washington, D.C. mayor Marion

Barry and federal prosecutor Eric Holder, feared that the gains of the civil rights movement were being undermined by lawlessness—and thus embraced tough-on-crime measures, including longer sentences and aggressive police tactics. In the face of skyrocketing murder rates and the proliferation of open-air drug markets, they believed they had no choice. But the policies they adopted would have devastating consequences for residents of poor black neighborhoods. A former D.C. public defender, Forman tells riveting stories of politicians, community activists, police officers, defendants, and crime victims. He writes with compassion about individuals trapped in terrible dilemmas—from the men and women he represented in court to officials struggling to respond to a public safety emergency. *Locking Up Our Own* enriches our understanding of why our society became so punitive and offers important lessons to anyone concerned about the future of race and the criminal justice system in this country.

The American System of Criminal Justice One World

This innovative work builds on Huff and Killias(tm) earlier publication (2008), but is broader and more thoroughly comparative in a number of important ways:ee (1) while focusing heavily on wrongful convictions, it places the subject of wrongful convictions in the broader contextual framework of miscarriages of justice and provides discussions of different types of miscarriages of justice that have not previously received much scholarly attention by criminologists; (2) it addresses, in much greater detail, the questions of how, and how often, wrongful convictions occur; (3) it provides more in-depth consideration of the role of forensic science in helping produce wrongful convictions and in helping free those who have been wrongfully convicted; (4) it offers new insights into the origins and current progress of the innocence movement, as well as the challenges that await the exonerated when they return to "free" society; (5) it assesses the impact of the use of alternatives to trials (especially plea bargains in the U.S. and summary proceedings and penal orders in Europe) in producing wrongful convictions; (6) it considers how the U.S. and Canada have responded to 9/11 and the increased threat of terrorism by enacting legislation and adopting policies that may exacerbate the problem of wrongful conviction; and (7) it provides in-depth considerations of two topics related to wrongful conviction:ee voluntary false confessions and convictions which, although technically not wrongful since they are based on law violations, represent another type of miscarriage of justice since they are due solely to unjust laws resulting from political repression. ee

Multi-Disciplinary Perspectives Cram101

In his Nautilus Award-winning classic *Touching Spirit Bear*, author Ben Mikaelson delivers a powerful coming-of-age story of a boy who must overcome the effects that violence has had on his life. After severely injuring Peter Driscoll in an empty parking lot, mischief-maker Cole Matthews is in major trouble. But instead of jail time, Cole is given another option: attend Circle Justice, an alternative program that sends juvenile offenders to a remote Alaskan Island to focus on changing their ways. Desperate to avoid prison, Cole fakes humility and agrees to go. While there, Cole is mauled by a mysterious white bear and left for dead. Thoughts of his abusive parents, helpless Peter, and his own anger cause him to examine his actions and seek redemption—from the spirit bear that attacked him, from his victims, and, most importantly, from himself. Ben Mikaelson paints a vivid picture of a juvenile offender, examining the roots of his anger without absolving him of responsibility for his actions, and questioning a society in which angry people make victims of their peers and communities. *Touching Spirit Bear* is a poignant testimonial to the power of a pain that can destroy, or lead to healing. A strong choice for independent reading, sharing in the classroom, homeschooling, and book groups.
