Counseling Theory Stanford University Press

What drives wealthy and powerful people to white-collar crime? Why They Do It is a breakthrough look at the dark side of the business world. From the financial fraudsters of Enron, to the embezzlers at Tyco, to the insider traders at McKinsey, to the Ponzi schemer Bernie Madoff, the failings of corporate titans are regular fixtures in the news. In Why They Do It, Harvard Business School professor Eugene Soltes draws from extensive personal interaction and correspondence with nearly fifty former executives as well as the latest research in psychology, criminology, and economics to

investigate how once-celebrated executives become white-collar criminals. White-collar criminals are not merely driven by excessive greed or hubris, nor do they usually carefully calculate costs and benefits before breaking the law. Instead, Soltes shows that most of the executives who committed crimes made decisions the way we all do-on the basis of their intuitions and gut feelings. The trouble is that these gut feelings are often poorly suited for the modern business world where leaders are increasingly distanced from the consequences of their decisions and the individuals they impact. The extraordinary costs of corporate misconduct are clear to its victims. Yet, never before have we been able to peer so deeply into the minds of the many prominent perpetrators of white-collar crime. With the increasing globalization of business threatening us with even more devastating corporate misconduct, the lessons Soltes draws in Why They Do It are needed more urgently than ever.

Criminological Theory Routledge

This book provides a comprehensive and up-to-date introduction to criminological theory for students taking courses in criminology at both undergraduate and postgraduate level. Building on previous editions, this book presents the latest research and theoretical developments. The text is divided into five parts, the first three of which address ideal type models of criminal behaviour: the rational actor, predestined actor and victimized actor models. Within these, the various criminological theories are located chronologically in the context of one of these different traditions, and the strengths and weaknesses of each theory and model are clearly identified. The fourth part of the book looks closely at more recent attempts to integrate theoretical elements from both within and across models of criminal behaviour, while the fifth part addresses a number of key recent concerns of criminology: postmodernism, cultural criminology, globalization and communitarianism, the penal society, southern criminology and critical criminology. All major theoretical perspectives are considered, including: classical criminology, biological and psychological positivism, labelling theories, feminist criminology, critical criminology and left realism, situation action, desistance theories, social control theories, the risk society, postmodern condition and terrorism. The new edition also features comprehensive coverage of recent developments in criminology, including 'the myth of the crime drop', the revitalization of critical criminology and political economy, shaming and crime, defiance theory, coerced mobility theory and new developments in social control and general strain theories. This revised and expanded fifth edition of An Introduction to Criminological Theory includes chapter summaries,

Taking Sides Routledge

This book promotes the notion of second chances and the importance of human services within the communities most affected by crime and the criminal justice system. Recognition of the fallibility of humans and the necessity of redemption is the first step to change our attitude toward guilt and punishment. Barring citizens with criminal records from obtaining housing, employment, education, and public benefits like Medicaid and food stamps is not only unjust but unproductive for a human society. The contributors to this volume argue that second chances are a foundational principle of the human services field.
