INSTANT #1 NEW YORK TIMES BESTSELLER A Best Book of the Year: The New Yorker, The Guardian, The Sunday Times, The Daily Mail, Good Morning America, She Reads Famed American actress Demi Moore at last tells her own story in a surprisingly intimate and emotionally charged memoir. For decades, Demi Moore has been synonymous with celebrity. From iconic film roles to high-profile relationships, Moore has never been far from the spotlight—or the headlines. Even as Demi was becoming the highest paid actress in Hollywood, however, she was always outrunning her past, just one step ahead of the doubts and insecurities that defined her childhood. Throughout her rise to fame and during some of the most pivotal moments of her life, Demi battled addiction, body image issues, and childhood trauma that would follow her for years—all while juggling a skyrocketing career and at times negative public perception. As her success grew, Demi found herself questioning if she belonged in Hollywood, if she was a good mother, a good actress—and, always, if she was simply good enough. As much as her story is about adversity, it is also about tremendous resilience. In this deeply candid and reflective memoir, Demi pulls back the curtain and opens up about her career and personal life—laying bare her tumultuous relationship with her mother, her marriages, her struggles balancing stardom with raising a family, and her journey toward open heartedness. *Inside Out* is a story of survival, success, and surrender—a wrenchingly honest portrayal of one woman's at once ordinary and iconic life. The bestselling, widely heralded, Jungian introduction to the psychological foundation of a mature, authentic, and revitalized masculinity. Redefining age-old concepts of masculinity, Jungian analysts Robert Moore and Douglas Gillette make the argument that mature masculinity is not abusive or domineering, but generative, creative, and empowering of the self and others. Moore and Gillette clearly define the four mature male archetypes that stand out through myth and literature across history: the king (the energy of just and creative ordering), the warrior (the energy of aggressive but nonviolent action), the magician (the energy of initiation and transformation), and the lover (the energy that connects one to others and the world), as well as the four immature patterns that interfere with masculine potential (divine child, oedipal child, trickster and hero). *King, Warrior, Magician, Lover* is an exploratory journey that will help men and women reimagine and deepen their understanding of the masculine psyche.

This volume reflects the development and theoretical foundation of a new paradigm for critical thinking based on inquiry. The field of critical thinking, as manifested in the Informal Logic movement, developed primarily as a response to the inadequacies of formalism to represent actual argumentative practice and to provide useful argumentative skills to students. Because of this, the primary focus of the field has been on informal arguments rather than formal reasoning. Yet the formalist history of the field is still evident in its emphasis, with respect to both theory and pedagogy, on the structure and evaluation of individual, de-contextualized arguments. It is our view that such a view of critical thinking is excessively narrow and limited, failing to provide an understanding of argumentation as largely a matter of comparative evaluation of a variety of contending positions and arguments with the goal of reaching a reasoned judgment on an issue. As a consequence, traditional critical thinking instruction is problematic in failing to provide the reasoning skills that students need in order to accomplish this goal. Instead, the goal of critical thinking instruction has been seen largely as a defensive one: of learning to not fall prey to invalid, inadequate, or fallacious arguments.

Michelle Alexander's *The New Jim Crow: Mass Incarceration in the Age of Colorblindness* is an unflinching dissection of the racial biases built into the American prison system. Named after the laws that enforced racial segregation in the southern United States until the mid-1960s, *The New Jim Crow* argues that while America is now legally a colorblind society - treating all races equally under the law - many factors combine to build profound racial weighting into the legal system. The US now has the world's highest rate of incarceration, and a disproportionate percentage of the prison population is comprised of African-American men. Alexander's argument is that different legal factors have combined to mean both that African-Americans are more likely to be targeted by police, and to receive long jail sentences for their crimes. While many of Alexander's arguments and statistics are to be found in other books and authors' work, *The New Jim Crow* is a masterful example of the reasoning skills that communicate arguments persuasively. Alexander's skills are those fundamental to critical thinking reasoning: organizing evidence, examining other sides of the question, and synthesizing points to create an overall argument that is as watertight as it is persuasive.

A classic of twentieth-century thought, charting how society devours itself through the very rationality that was meant to set it free Theodor Adorno and Max Horkheimer are the leading figures of the Frankfurt School and this book is their magnum opus. Dialectic of Enlightenment is one of the most celebrated works of modern social philosophy and continues to impress in its wide-ranging ambition. Writing just after World War II and reflecting on the bureaucracy and myths of National Socialism and the inanity of the dawn of consumerism, Adorno and Horkheimer addressed themselves to a question which went to the very heart of the modern age: 'why mankind, instead of entering into a truly human condition, is sinking into a new kind of barbarism'. Modernity, far from redeeming the promises and hopes of the Enlightenment, had resulted in the stultification of mankind and administered society, characterised by simulation and candy-floss entertainment. Tracing humanity's modern fall to the very rationality that was to be its liberation, the authors exposed the domination and violence that underpin the Enlightenment project.
