Crome Yellow is the first novel by British author Aldous Huxley. It was published in 1921. In the book, Huxley satirises the fads and fashions of the time. It is the witty story of a house party at "Crome" (a lightly veiled reference to Garsington Manor, a house where authors such as Huxley

and T. S. Eliot used to gather and write). We hear the history of the house from Henry Wimbush, its owner and self-appointed historian; apocalypse is prophesied, virginity is lost, and inspirational aphorisms are gained in a trance. Our hero, Denis Stone, tries to capture it all in poetry and is disappointed in love.

Long before Tom Wolf 's The Electric Kool-Aid Acid Test or Hunter S. Thompson 's Fear and Loathing in Las Vegas, Aldous Huxley wrote about his mind-bending experiences taking mescaline in his essay The Doors of Perception. Written largely from the first-person perspective, The Doors of Perception blends Eastern mysticism with scientific experimentation in equal parts, and what results is one of the most

influential meditations on the effects of hallucinatory drugs on the human psyche ever written in the Western canon. Huxley 's Doors of Perception ushered in a whole new generation of counter-culture icons such as Jackson Pollock, John Cage, and Timothy Leary, and inspired Jim Morrison and the naming of his band, The Doors. On vacation from school, Denis goes

to stay at Crome, an English country house inhabited by several of Huxley's most outlandish characters--from Mr. Barbecue-Smith, who writes 1,500 publishable words an hour by "getting in touch" with his "subconscious," to Henry Wimbush, who is obsessed with writing the definitive history of chrome. Denis's stay proves to be a disaster amid his weak attempts to attract the girl of his dreams and the ridicule he endures regarding his plan to write a novel about love and art. Lambasting the post-Victorian standards of morality, Chrome yello is a witty masterpiece that, in F. Scott Fitzgerald's words, "is too

ironic to be called satire and too scornful to be called irony."

When Aldous Huxley's *Brave New World* first appeared in 1932, it presented in terms of purest fantasy a society bent on self-destruction. Few of its outraged critics anticipated the onset of another world war with its Holocaust and atomic ruin. In 1948, seeing that the probable shape of his anti-utopia had been altered inevitably by the facts of history, Huxley wrote *Ape and Essence*. In this savage novel, using the form of a film scenario, he transports us to the year 2108. The setting is Los Angeles where a "rediscovery expedition" from New Zealand is trying to make sense of what is left. From chief botanist Alfred Poole we learn, to our dismay, about the twenty-second-century way of life. "It was inevitable that Mr. Huxley should have written this book: one could almost have seen it since Hiroshima

is the necessary sequel to *Brave New World*."—Alfred Kazin. "The book has a certain awesome impressiveness; its sheer intractable bitterness cannot but affect the reader."—Time.

Selected writings from the author of *Brave New World* and *The Doors of Perception* on the role of psychedelics in society. • Includes letters and lectures by Huxley never published elsewhere. In May

1953 Aldous Huxley took four-tenths of a gram of mescaline. The mystical and transcendent experience that followed set him off on an exploration that was to produce a revolutionary body of work about the inner reaches of the human mind. Huxley was decades ahead of his time in his anticipation of the dangers modern culture was creating through explosive population increase, headlong technological advance, and militant nationalism, and he saw psychedelics as the greatest means at our disposal to "remind adults that the real world is very different from the misshapen universe they

have created for themselves by means of their culture-conditioned prejudices." Much of Huxley's writings following his 1953 mescaline experiment can be seen as his attempt to reveal the power of these substances to awaken a sense of the sacred in people living in a technological society hostile to mystical revelations. Moksha, a Sanskrit word meaning "liberation," is a collection of the prophetic and visionary writings of Aldous Huxley. It includes selections from his acclaimed novels *Brave New World* and *Island*, both of which envision societies centered around the use of psychedelics as stabilizing forces,

as well as pieces from *The Doors of Perception* and *Heaven and Hell*, his famous works on consciousness expansion.
