Traditional swords & sorcery fantasy with an authentic middle-eastern spin. The Crescent Moon Kingdoms, land of djenn and ghuls, holy warriors and heretics, Khalifs and killers, is at boiling point. A power struggle between the iron-fisted Khalif and the mysterious master thief known as the Falcon Prince is reaching its climax. In the midst of this brewing rebellion, a series of brutal supernatural murders strikes at the heart of the Kingdoms. Only a handful of reluctant heroes can learn the truth, and stop the killing. Doctor Adoulla Makhslood just wants a quiet cup of tea. Three score and more years old, he has grown weary of hunting monsters and saving lives, and is more than ready to retire from his dangerous and demanding vocation. But when an old flame's family is murdered, Adoulla is drawn back to the hunter's path. Raseed bas Raseed, Adoulla's young assistant, a hidebound holy warrior whose prowess is matched only by his piety, is eager to deliver God's justice. Zamia Badawi has been gifted with the near-mythical power of the Lion-Shape, but shunned by her people for daring to take up a man's title. She lives only to avenge her father's death. Until she learns that Adoulla and his allies also hunt her father's killer. Until she meets Raseed. When they learn that the murders and the Falcon Prince's brewing revolution are connected, the companions must race against time to save the life of a vicious despot. In so doing they discover a plot for the Throne of the Crescent Moon that threatens to turn the city, and the world itself, into a blood-soaked ruin.

Unlike many books about adult literacy, which focus on abstract concepts related to test scores, this volume develops an understanding of literacy through the engaging life stories of twelve adults from diverse backgrounds living in the United States. In the process of coming to know these adults, we learn, contrary to commonly held assumptions and beliefs about literacy, that adults with limited literacy skills work hard and long, make limited use of public

resources, can use technology when shown, and have pride and self-respect. In addition to all of the scientific information and policy implications yielded by this research study, this is foremost a compelling story of human struggle and survival. Readers will find themselves caring about these adults, feeling angry about their underemployment and their pain, and excited about their triumphs.

Srimad Bhagavad Gita is now widely recognised as a scriptural text of worldwide importance. Sri Ramanuja is one of the noted commentators on the Vedanta Sutras of Badarayana and the Bhagavad Gita. This has brought him recognition as one of the greatest exponents of Vedanta from the Vaishnava point of view. Swami Adidevananda, one of the distinguished scholarly monks of the Ramakrishna Order who retained his inherent Sri Vaishnava heritage, has translated the original verses and Sri Ramanuja's commentary into English. This book is of special importance because it is the only English translation now available with the original Sanskrit commentary as well. The book opens with meditation on the Gita followed by the Gitartha-sangraha of Sri Yamunacharya with English translation. Swami Tapasyananda, who was a scholarly monk with deep devotional temperament and one of the Vice-Presidents of the Ramakrishna Order, has written a scholarly introduction to this work.

"Links" are among the most basic---and most unexamined---features of online life. Bringing together a prominent array of thinkers from industry and the academy, The Hyperlinked Society addresses a provocative series of questions about the ways in which hyperlinks organize behavior online. How do media producers' considerations of links change the way they approach their work, and how do these considerations in turn affect the ways that audiences consume news and

entertainment? What role do economic and political considerations play in information producers' creation of links? How do links shape the size and scope of the public sphere in the digital age? Are hyperlinks "bridging" mechanisms that encourage people to see beyond their personal beliefs to a broader and more diverse world? Or do they simply reinforce existing bonds by encouraging people to ignore social and political perspectives that conflict with their existing interests and beliefs? This pathbreaking collection of essays will be valuable to anyone interested in the now taken for granted connections that structure communication, commerce, and civic discourse in the world of digital media. "This collection provides a broad and deep examination of the social, political, and economic implications of the evolving, web-based media environment. The Hyperlinked Society will be a very useful contribution to the scholarly debate about the role of the internet in modern society, and especially about the interaction between the internet and other media systems in modern society." ---Charles Steinfield, Professor and Chairperson, Department of Telecommunication, Information Studies, and Media, Michigan State University Joseph Turow is Robert Lewis Shayon Professor at the Annenberg School for Communication, University of Pennsylvania. A former parole officer shines a bright light on a huge yet hidden part of our justice system through the intertwining stories of seven parolees striving to survive the chaos that awaits them after prison in this illuminating and dramatic book. Prompted by a dead-end retail job and a vague desire to increase the amount of justice in his hometown, Jason Hardy became a parole officer in New Orleans at the worst possible moment. Louisiana's incarceration rates were the highest in the US and his department's caseload had just been increased to 220 "offenders" per parole officer, whereas the national average is around 100. Almost immediately, he discovered that the biggest problem with our prison system is what we do—and don't do—when people get out of prison. Deprived of social support and jobs, these former convicts are often worse off than when they first entered prison and Hardy dramatizes their dilemmas with empathy and grace. He's given unique access to their lives and a growing recognition of their struggles and takes on his job with the hope that he can change people's fates—but he quickly learns otherwise. The best Hardy and his colleagues can do is watch out for impending disaster and help clean up the mess left behind. But he finds that some of his charges can muster the miraculous power to save themselves. By following these heroes, he both stokes our hope and fuels our outrage by showing us how most offenders, even those with the best intentions, end up back in prison—or dead—because the system systematically fails them. Our focus should be, he argues, to give offenders the tools they need to re-enter society which is not only humane but also vastly cheaper for taxpayers. As immersive and dramatic as *Evicted* and as revelatory as *The New Jim Crow*, *The Second Chance Club* shows us how to solve the cruelest problems prisons create for offenders and society at large.

Cooking Data Vintage Canada

In *Cooking Data* Crystal Biruk offers an ethnographic account of research into the demographics of HIV and AIDS in Malawi to rethink the production of quantitative health data. While research practices are often understood within a clean/dirty binary, Biruk shows that data are never clean; rather, they are always "cooked" during their production and inevitably entangled with the lives of those who produce them. Examining how the relationships among fieldworkers, supervisors, respondents, and foreign demographers shape data, Biruk examines the ways in which units of information—such as survey questions and numbers written onto questionnaires by fieldworkers—acquire value as statistics that go on to shape national AIDS policy. Her approach illustrates how on-the-ground dynamics and research cultures mediate the production of global health statistics in ways that impact local economies and formulations of power and expertise.

The Non-Philosophy of Gilles Deleuze takes up Deleuze's most powerful argument on the task of contemporary philosophy in the West. Deleuze argues that it is only through a creative engagement with the forms of non-philosophy--notably modern art, literature and

cinema--that philosophy can hope to attain the conceptual resources to restore the broken links of perception, language and emotion. In short, this is the only future for philosophy if it is to repair its fragile relationship to immanence to the world as it is. A sequence of dazzling essays analyze Deleuze's investigations into the modern arts. Particular attention is paid to Deleuze's exploration of Leibniz in relation to modern painting and of Borges to an understanding of the relationship between philosophy, literature and language. By illustrating Deleuze's own approach to the arts, and to modern literature in particular, the book demonstrates the critical significance of Deleuze's call for a future philosophy defined as an "art of inventing concepts."

By the New York Times bestselling author of *The Bone Clocks* | Shortlisted for the Man Booker Prize A postmodern visionary and one of the leading voices in twenty-first-century fiction, David Mitchell combines flat-out adventure, a Nabokovian love of puzzles, a keen eye for character, and a taste for mind-bending, philosophical and scientific speculation in the tradition of Umberto Eco, Haruki Murakami, and Philip K. Dick. The result is brilliantly original fiction as profound as it is playful. In this groundbreaking novel, an influential favorite among a new generation of writers, Mitchell explores with daring artistry fundamental questions of reality and identity. *Cloud Atlas* begins in 1850 with Adam Ewing, an American notary voyaging from the Chatham Isles to his home in California. Along the way, Ewing is befriended by a physician, Dr. Goose, who begins to treat him for a rare species of brain parasite. . . . Abruptly, the action jumps to Belgium in 1931, where Robert Frobisher, a disinherited bisexual composer, contrives his way into the household of an infirm maestro who has a beguiling wife and a nubile daughter. . . . From there we jump to the West Coast in the 1970s and a troubled reporter named Luisa Rey, who stumbles upon a web of corporate greed and murder that threatens to claim her life. . . . And onward, with dazzling virtuosity, to an inglorious present-day England; to a Korean superstate of the near future where neocapitalism has run amok; and, finally, to a postapocalyptic Iron Age Hawaii in the last days of history. But the story doesn't end even there. The narrative then boomerangs back through centuries and space, returning by the same route, in reverse, to its starting point. Along the way, Mitchell reveals how his disparate characters connect, how their fates intertwine, and how their souls drift across time like clouds across the sky. As wild as a videogame, as mysterious as a Zen koan, *Cloud Atlas* is an unforgettable tour de force that, like its incomparable author, has transcended its cult classic status to become a worldwide phenomenon. Praise for *Cloud Atlas* " [David] Mitchell is, clearly, a genius. He writes as though at the helm of some perpetual dream machine, can evidently do anything, and his ambition is written in magma across this novel's every page. " —The New York Times Book Review " One of those how-the-holy-hell-did-he-do-it? modern classics that no doubt is—and should be—read by any student of contemporary literature. " —Dave Eggers " Wildly entertaining . . . a head rush, both action-packed and chillingly ruminative. " —People " The novel as series of nested dolls or Chinese boxes, a puzzle-book, and yet—not just dazzling, amusing, or clever but heartbreaking and passionate, too. I've never read anything quite like it, and I'm grateful to have lived, for a while, in all its many worlds. " —Michael Chabon " *Cloud Atlas* ought to make [Mitchell] famous on both sides of the Atlantic as a writer whose fearlessness is matched by his talent. " —The Washington Post Book World " Thrilling . . . One of the biggest joys in *Cloud Atlas* is watching Mitchell sashay from genre to genre without a hitch in his dance

step. " —Boston Sunday Globe " Grand and elaborate . . . [Mitchell] creates a world and language at once foreign and strange, yet strikingly familiar and intimate. " —Los Angeles Times

With an emphasis on violence against women and on women's responses to it - such as depression, splitting and eating disturbances - this volume furthers the radicalization of feminist therapy. It serves as a comprehensive introduction for trainees and as an ongoing resource for social service workers and therapists. Providing detailed and grounded guidance, the author examines feminist approaches to working with women and discusses issues often omitted or pathologized in general feminist counselling texts, including prostitutes battered by pimps and self-mutilation. She explores such central questions as how women can empower themselves in a sexist society; what forms internalized oppression takes and how clients can be hel
