Crossroads, Book 1 HarperCollins UK
NOW A MAJOR ITV DRAMA A new translation of Georges Simenon's sensational tale of deceit and back-stabbing in an isolated community, book six in the new Penguin Maigret series. 'She came forward, the outlines of her figure blurred in the half-light. She came forward like a film star, or rather like the ideal woman in an adolescent's dream. 'I gather you wish to talk to me, Inspector . . . but first of all please sit down . . .' Her accent was more pronounced than Carl's. Her voice sang, dropping on the last syllable of the longer words.' Maigret has been interrogating Carl Andersen for seventeen hours without a confession. He's either innocent or a very good liar. So why was the body of a diamond merchant found at his isolated mansion? Why is his sister always shut away in her room? And why does everyone at Three Widows

Crossroads have something to hide? Penguin is publishing the entire series of Maigret novels in new translations. This novel has been published in previous translations as Maigret at the Crossroads and The Crossroad Murders. 'Compelling, remorseless, brilliant' John Gray 'One of the greatest writers of the twentieth century . . . Simenon was unequalled at making us look inside, though the ability was masked by his brilliance at absorbing us obsessively in his stories' Guardian 'A supreme writer . . . unforgettable vividness' Independent *Then Came Edgar* Indiana University Press

'Crossroads', one of the most successful programmes on television, has attracted a huge and devoted audience of some 15 million regular viewers. Yet, like many soap operas, it is derided by the press and treated with distaste by other programme-makers. Indeed, despite its popularity, its very future currently hangs in the balance. While doing independent research on popular television in the ATV studios in 1981, Dorothy Hobson observed the storm that developed around the company's decision to dispense with Meg Mortimer, star

of 'Crossroads'. The repercussions of that announcement were immense and highlighted the gulf between the broadcasting authorities and the programme's critics, and the 'Crossroads' production team and the audience. Through talking to the actors, the programme controller and the viewing public, she went on to explore the contradictions of why and how a soap opera is made and viewed, examining the appeal of 'Crossroads' and attempting to locate the programme as part of contemporary popular culture. The result is a revealing, controversial but also very absorbing analysis of a soap opera in crisis.

Our current food system has decimated rural communities and confined the choices of urban consumers. Even while America continues to ramp up farm production to astounding levels, net farm income is now lower than at the onset of the Great Depression, and one out of every eight Americans faces hunger. But a healthier and more equitable food system is possible. In *Building Community Food Webs*, Ken Meter shows how grassroots food and farming leaders across the U.S. are tackling these challenges by constructing civic networks. Overturning extractive economic structures, these inspired leaders are engaging low-income residents, farmers, and local organizations in their quest to build stronger communities. Community food webs strive to build health, wealth, capacity, and connection. Their essential element is building greater respect and mutual trust, so community members can more effectively empower themselves and address local challenges. Farmers and researchers may convene to improve farming practices collaboratively. Health clinics help clients grow food for themselves and attain better health. Food banks engage their customers to challenge the root causes of poverty. Municipalities invest large sums to protect farmland from development. Developers forge links among local businesses to strengthen economic trade. Leaders in communities

marginalized by our current food system are charting a new path forward. Building Community Food Webs captures the essence of these efforts, underway in diverse places including Montana, Hawai‘i, Vermont, Arizona, Colorado, Indiana, and Minnesota. Addressing challenges as well as opportunities, Meter offers pragmatic insights for community food leaders and other grassroots activists alike.

Focusing on the art and literary form of manga, this volume examines the intercultural exchanges that have shaped manga during the twentieth century and how manga's culturalization is related to its globalization. Through contributions from leading scholars in the fields of comics and Japanese culture, it describes "manga culture" in two ways: as a fundamentally hybrid culture comprised of both subcultures and transcultures, and as an aesthetic culture which has eluded modernist notions of art, originality, and authorship. The latter is demonstrated in a special focus on the best-selling manga franchise, NARUTO.

Examining interactions between native Americans and whites in eighteenth-century Pennsylvania, Jane Merritt traces the emergence of race as the defining difference between these neighbors on the frontier. Before 1755, Indian and white communities in Pennsylvania shared a certain amount of interdependence. They traded skills and resources and found a common enemy in the colonial authorities, including the powerful Six Nations, who attempted to control them and the land they inhabited. Using innovative research in German Moravian records, among other sources, Merritt explores the cultural practices, social needs, gender dynamics, economic exigencies, and political forces that brought native Americans and Euramericans together in

the first half of the eighteenth century. But as Merritt demonstrates, the tolerance and even cooperation that once marked relations between Indians and whites collapsed during the Seven Years' War. By the 1760s, as the white population increased, a stronger, nationalist identity emerged among both white and Indian populations, each calling for new territorial and political boundaries to separate their communities. Differences between Indians and whites--whether political, economic, social, religious, or ethnic--became increasingly characterized in racial terms, and the resulting animosity left an enduring legacy in Pennsylvania's colonial history.

In this multi-faceted volume, Christian and other religiously committed theorists find themselves at an uneasy point in history -- between premodernity, modernity, and postmodernity -- where disciplines and methods, cultural and linguistic traditions, and religious commitments tangle and cross. Here, leading theorists explore the state of the art of the contemporary hermeneutical terrain. As they address the work of Gadamer, Ricoeur, and Derrida, the essays collected in this wide-ranging work

engage key themes in philosophical hermeneutics, hermeneutics and religion, hermeneutics and the other arts, hermeneutics and literature, and hermeneutics and ethics. Readers will find lively exchanges and reflections that meet the intellectual and philosophical challenges posed by hermeneutics at the crossroads.
