pattern as well as the answers to your knowledge the grid is the clues. This is why it is called a skeleton crossword, as you have to put the flesh on the bones of the grid in addition to solving the puzzle. Each of these 50 puzzles has a different grid pattern, each displaying symmetry, and you'll need to use the fact that the grids are symmetrical to help you deduce the pattern of the grid whilst completing the crossword puzzle itself. For each puzzle we reveal a small amount of grid information, and you'll have to use this information, the clues and
