**The Ethnic Crucible (RLE Edu J)** The Crucible"The Crucible" is a 1952 play by the American playwright Arthur Miller. It is a dramatization of the Salem witch trials that took place in the Province of Massachusetts Bay during 1692 and 1693. Miller wrote the play as an allegory of McCarthyism, when the US government blacklisted accused communists. Miller himself was questioned by the House of Representatives' Committee on Un-American Activities in 1956 and convicted of "contempt of Congress" for refusing to identify others present at meetings he had attended. It was first performed at the Martin Beck Theater on Broadway on January 22, 1953. Miller felt that this production was too stylized and cold and the reviews for it were largely hostile (although The New York Times noted "a powerful play in a driving performance"). Nonetheless, the production won the 1953 "Best Play" Tony Award. A year later a new production succeeded and the play became a classic. It is a central work in the canon of American drama. Fuji Books' edition of "The Crucible" contains supplementary texts: \* "Tragedy And The Common Man", an essay by Arthur Miller. \* Excerpts from Nathaniel Hawthorne's magnum opus "The Scarlet Letter", a narrative of the Salem Witch trials. \* A few selected quotes of Arthur Miller.The Crucible LitPlan Teacher Pack

This report from the National Task Force on Civic Learning and Democratic Engagement calls on the nation to reclaim higher education's civic mission. Commissioned by the Department of Education and released at a White House convening in January 2012, the report pushes back against a prevailing national dialogue that limits the mission of higher education to workforce preparation and training while marginalizing disciplines basic to democracy. It calls on educators and public leaders to advance a 21st century vision of college learning for all students, a vision with civic learning and democratic engagement an expected part of every student's college education. The report documents the nation's anemic civic health and includes recommendations for action that address campus culture, general education, and civic inquiry as part of major and career fields as well as hands on civic problem solving across differences. This report was prepared at the invitation of the U.S. Department of Education under the leadership of the Global Perspective Institute, Inc. (GPI) and AAC&U. It was developed with input from a series of national roundtables involving leaders from all parts of the higher education and civic renewal communities.

NEW YORK TIMES BESTSELLER • The “ compassionate ” (People), “ startling ” (Baltimore Sun), “ moving ” (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. In development as a feature film executive produced by Stephen Curry, who selected the book as his “ Underrated ” Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn ’ t shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they ’ d hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, The Other Wes Moore tells the story of a generation of boys trying to find their way in a hostile world.

The majority of us will spend our working lives being not our best self, but rather a lesser version of our self, often creating a public fa ç ade that does not match who we are behind closed doors. And thus, we slowly die by a thousand paper cuts. In an era of inauthentic leaders, the stakes could not be higher for embracing a better version of yourself that propels you and your team to success. In a social media world there is an abundance of false narratives about happiness and authenticity, it is easy to get lost on your journey. Authentic leadership expert Dr. James Kelley shows that the key to personal and professional growth lies in how we respond effectively to adversity. In fact, what causes us and our organizations the most fear can be our greatest gift, creating a positive meaning out of challenges. A test or trial--your individual crucible--gives you the potential to increase self-awareness, develop deeper compassion, live with more integrity and boost connection with colleagues. High-impact leaders thrive in adversity because of their crucibles, not in spite of them. The Crucible's Gift introduces you to lessons from over 140 diverse leaders who demonstrated the art of living more authentically. Combining these rich, raw and insightful stories with his knowledge of business and psychology--as well as his candid accounts of what he has learned from his personal crucibles--Kelley shows how to transform what holds you back into traits that will propel you forward, encouraging you to step fully into your life. The world demands leaders who can accomplish the impossible, delegate effectively and inspire their teams. The Crucible's Gift shows that, provided you're open to receiving it, today's worst situation may be tomorrow's biggest opportunity. No more bullshit excuses.

A new Penguin Plays edition of the forgotten classic that launched the career of one of America ’ s greatest playwrights It took more than fifty years for The Man Who Had All the Luck to be appreciated for what it truly is: the first stirrings of a genius that would go on to blossom in such masterpieces as Death of a Salesman and The Crucible. This striking new edition finally adds Miller ’ s first major play to the Penguin Plays series—now in beautifully redesigned covers. Infused with the moral malaise of the Depression era, this parable-like drama centers on David Beeves, a man before whom every obstacle to personal and professional success seems to crumble with ease. But his good fortune merely serves to reveal the tragedies of those around him in greater relief, offering what David believes to be evidence of a capricious god or, worse, a godless, arbitrary universe. David ’ s journey toward fulfillment becomes a nightmare of existential doubts, a desperate grasp for reason in a cosmos seemingly devoid of any, and a struggle that will take him to the brink of madness.

Management decisions on appropriate practices and policies regarding tropical forests often need to be made in spite of innumerable uncertainties and complexities. Among the uncertainties are the lack of formalization of lessons learned regarding the impacts of previous programs and projects. Beyond the challenges of generating the proper information on these impacts, there are other difficulties that relate with how to socialize the information and knowledge gained so that change is transformational and enduring. The main complexities lie in understanding the interactions of social-ecological systems at different scales and how they varied through time in response to policy and other processes. This volume is part of a broad research effort to develop an independent evaluation of certification impacts with stakeholder input, which focuses on FSC certification of natural tropical forests. More specifically, the evaluation program aims at building the evidence base of the empirical biophysical, social, economic, and policy effects that FSC certification of natural forest has had in Brazil as well as in other tropical countries. The contents of this volume highlight the opportunities and constraints that those responsible for managing natural forests for timber production have experienced in their efforts to improve their practices in Brazil. As such, the goal of the studies in this volume is to serve as the foundation to design an impact evaluation framework of the impacts of FSC certification of natural forests in a participatory manner with interested parties, from institutions and organizations, to communities and individuals.
