Something wicked was brewing in the small town of Salem, Massachusetts in 1692. It started when two girls, Betty Parris and Abigail Williams, began having hysterical fits. Soon

after, other local girls claimed they were being pricked with pins. With no scientific explanation available, the residents of Salem came to one conclusion: it was witchcraft! Over the next year and a half, nineteen people were convicted of witchcraft and hanged while more languished in prison as hysteria swept the colony. Author Joan Holub gives readers and inside look at this sinister chapter in history.

Crucible "The Crucible" is a 1952 play by the American playwright Arthur Miller. It is a dramatization of the Salem witch trials that took place in the Province of Massachusetts Bay during 1692 and 1693. Miller wrote the play as an allegory of McCarthyism, when the US government blacklisted accused communists. Miller himself was questioned by the House of Representatives' Committee on Un-American Activities in 1956 and convicted of "contempt of Congress" for refusing to identify others present at meetings he had attended. It was first performed at the Martin Beck Theater on Broadway on January 22, 1953. Miller felt that this

production was too stylized and cold and the reviews for it were largely hostile (although The New York Times noted "a powerful play in a driving performance"). Nonetheless, the production won the 1953 "Best Play" Tony Award. A year later a new production succeeded and the play became a classic. It is a central work in the canon of American drama. Fuji Books' edition of "The Crucible" contains supplementary texts: * "Tragedy And The Common Man", an essay by Arthur Miller. * Excerpts from Nathaniel Hawthorne's magnum opus "The Scarlet Letter", a narrative of the Salem Witch trials. * A few selected quotes of Arthur Miller. With many scholars and analysts questioning the relevance of deterrence as a valid strategic concept, this volume moves beyond Cold War nuclear deterrence to show the many ways in which deterrence is applicable to contemporary security. It examines the possibility of applying deterrence theory and practice to space, to cyberspace, and against non-state actors. It also examines the role of nuclear deterrence in the twenty-first century and reaches surprising conclusions.

Golding 's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn't commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of mercy and justice forever. *Just Mercy* is at once an unforgettable account of an idealistic, gifted young lawyer's coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. This report from the National Task Force on Civic Learning and Democratic Engagement calls on the nation to reclaim higher education's civic mission. Commissioned by the Department of Education and released at a White House convening in January 2012, the report pushes back against a prevailing national dialogue that limits the mission of higher education to workforce preparation and training while marginalizing disciplines basic to democracy. It calls on educators

and public leaders to advance a 21st century vision of college learning for all students, a vision with civic learning and democratic engagement an expected part of every student's college education. The report documents the nation's anemic civic health and includes recommendations for action that address campus culture, general education, and civic inquiry as part of major and career fields as well as hands on civic problem solving across differences. This report was prepared at the invitation of the U.S. Department of Education under the leadership of the Global Perspective Institute, Inc. (GPI) and AAC&U. It was developed with input from a series of national roundtables involving leaders from all parts of the higher education and civic renewal communities.

1782, Crèvecoeur's Letters from an American Farmer was one of the first works to describe the character of the average American at the close of the Revolutionary War. His famous question, "What, then, is the American, this new man?", summarized the European's interest in and questioning of the new country of America at a time when centuries of tradition had just been overturned and post-colonial Americans were attempting to describe themselves in a new way. Through the character of James, the letters celebrate the land of America, its space and fertility, and the character of Americans themselves, their work ethic and spirit of personal determination. The Letters also look at the darker side of American life, particularly the issue of slavery. The discussions of American identity, participation in war (or not), and the perception of immigrants and their ethnicity make this book as relevant to our understanding of ourselves today as it was in 1782. One World A new Penguin Plays edition of the forgotten classic that launched the career of one of America's greatest playwrights It took more than fifty years for The Man Who Had All the Luck to be appreciated

for what it truly is: the first stirrings of a genius that would go on to blossom in such masterpieces as Death of a Salesman and The Crucible. This striking new edition finally adds Miller's first major play to the Penguin Plays series—now in beautifully redesigned covers. Infused with the moral malaise of the Depression era, this parable-like drama centers on David Beeves, a man before whom every obstacle to personal and professional success seems to crumble with ease. But his good fortune merely serves to reveal the tragedies of those around him in greater relief, offering what David believes to be evidence of a capricious god or, worse, a godless, arbitrary universe. David's journey toward fulfillment becomes a nightmare of existential doubts, a desperate grasp for reason in a cosmos seemingly devoid of any, and a struggle that will take him to the brink of madness.
