Nancy Kress made her reputation in the early 90s with her multiple award-winning novella, "Beggars in Spain," which became the basis for her extremely successful Beggars Trilogy (comprising Beggars in Spain, Beggars and Choosers, and Beggars Ride). Since then she has written over a dozen novels, including the well-received Probability Trilogy, culminating in Probability Space, which garnered her the John W. Campbell Memorial Award for Best SF Novel. Now comes a brand new science fiction epic. It began with Crossfire: a far-future novel of planetary colonization and alien first contact. Jake Holman, a man trying to escape a dark past, brought together a diverse group of thousands to settle on a new world. But instead the humans found themselves caught in the crossfire of a galaxy-spanning war between two disparate species: aggressive, militaristic humanoids known as Furs and passive, plantlike creatures known as Vines. Having cast their lots with the peaceful Vines, humanity faces all-out war against the technologically superior Furs. Our only hope? A virus designed by the Vines to remove all aggressiveness from the Furs. Can it spread fast enough to save not only Holman’s colony, but the rest of humanity? And at what price to the Furs? Driven by strong ideas and deep moral questions, and peopled with real-as-life characters, Crucible shows Kress at the top of her form, amply demonstrating why she has been one of science fiction finest authors of the past twenty years. Echoes Down the Corridor Penguin

A Vintage Shorts Selection • Almost three decades ago, iconic and incomparable American essayist Joan Didion ’ s now-classic report from the Dukakis campaign trail exposed, in no uncertain terms, the complete sham that is the modern American presidential run. Writing with bite and some humor too, Didion betrays “ the process ” —the way in which power is exchanged and the status quo is maintained. All insiders—politicians, journalists, spin doctors—participate in a political narrative that is “ designed as it is to maintain the illusion of consensus by obscuring rather than addressing actual issues. ” The optics of presidential campaigns have grown ever more farcical and remote from the needs and issues most relevant to Americans ’ lives, and Didion ’ s elegant, shrewd, and prescient commentary has never been more urgent than it is right now. An ebook short.

Independence Day: Crucible (The Official Prequel) InterVarsity Press  
From the two-time Pulitzer Prize – winning author, God ’ s Crucible brings to life “ a furiously complex age ” (New York Times Book Review). Resonating as profoundly today as when it was first published to widespread critical acclaim a decade ago, God ’ s Crucible is a bold portrait of Islamic Spain and the birth of modern Europe from one of our greatest historians. David Levering Lewis ’ s narrative, filled with accounts of some of the most epic battles in world history, reveals how cosmopolitan, Muslim al-Andalus flourished—a beacon of cooperation and tolerance—while proto-Europe floundered in opposition to Islam, making virtues out of hereditary aristocracy, religious intolerance, perpetual war, and slavery. This masterful history begins with the fall of the Persian and Roman empires, followed by the rise of the prophet Muhammad and five centuries of engagement between the Muslim imperium and an emerging Europe. Essential and urgent, God ’ s Crucible underscores the importance of these early, world-altering events whose influence remains as current as today ’ s headlines.

2018 Nautilus Book Awards Silver Winner What if you could unlock a better answer to your most vexing problem—in your workplace, community, or home life—just by changing the question? Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created GoldieBlox. The idea came when a friend complained about too few women in engineering and Sterling wondered aloud: "why are all the great building toys made for boys?" Or consider Nobel laureate Richard Thaler, who asked: "would it change economic theory if we stopped pretending people were rational?" Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon ’ s exponential growth: “ Getting the right question is key to getting the right answer. ” Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn ’ t we know more about how to arrive at them? That sent him on a research quest ultimately including over two hundred interviews with creative thinkers. Questions Are the Answer delivers the insights Gregersen gained about the conditions that give rise to catalytic questions—and breakthrough insights—and how anyone can create them.

"In The Crucible of Faith, Philip Jenkins argues that much of the Judeo-Christian tradition we know today was born between 250-50 BCE, during a turbulent "Crucible Era." It was during these years that Judaism grappled with Hellenizing forces and produced new religious ideas that reflected and responded to their changing world. By the time of the fall of the Temple in 70 CE, concepts that might once have seemed bizarre became normalized-and thus passed on to Christianity and later Islam. Drawing widely on contemporary sources from outside the canonical Old and New Testaments, Jenkins reveals an era of political violence and social upheaval that ultimately gave birth to entirely new ideas about religion, the afterlife, Creation and the Fall, and the nature of God and Satan."--Amazon.
