Cruise Control - rose-hulman.edu

Is there an API I can use with Cruise Control .NET (ccnet) to query the server, for example to get the status of various builds? I have noticed that there are a few options in the ccnet tray application for connecting but I cannot find any documentation of the service API or examples of how to consume it.

Adaptive Cruise Control with Stop & Go - Safety | Maserati

The Adaptive Cruise Control is extremely helpful and particularly convenient in “stop and start” traffic conditions. The Stop & Go function will apply the brakes and bring you to a complete stop if the vehicle ahead stops in front of you, and then resume driving the car autonomously if the stop is less than two/three seconds.
