Technology and increasing levels of education have exposed people to more information than ever before. These societal gains, however, have also helped fuel a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues. Today, everyone knows everything: with only a quick trip through WebMD or Wikipedia, average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' *The Death of Expertise* shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an educated public, has instead created an army of ill-informed and angry citizens who denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of *The Death of Expertise* provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, *The Death of Expertise* issues a warning about the stability and survival of modern democracy in the Information Age that is even more important today.

From L.A. Times best-selling author Nancy Holder comes a new, original adventure featuring the cast of both *Buffy the Vampire Slayer* and *Angel*. In his first year in Los Angeles, Angel, the vampire with a soul, came across an inter-dimensional hunter named Jhiera. The seductive woman was only trying to protect other females in her culture from being stripped of their emotions -- intense emotions that gave them dominance over men. Angel fell victim to her heat, but Jhiera had to return to her own dimension. Now "She" is back and searching for a lost young woman who may be the key to unleashing an inter-dimensional war -- a war that will be led by a powerful sorcerer, determined to free China's terra-cotta army of fierce samurai from their long imprisonment.... There exists a hell dimension that is very much like the Ninth Circle of Hell that Dante Alighieri described in *The Inferno*. It is a frozen, desolate place, and the souls of the damned are buried in vast sheets of ice. Evil beings from many different dimensions have been sent there. The descendants of the imprisoned are chipping away at the barriers that separate the dimensions, hoping to free those trapped in the ice, so that they may return and claim this world for their own. One of these demons is in L.A. searching for Jhiera, hoping to strike a deal that will persuade her to thaw his soldiers -- and dragons -- in exchange for their help overthrowing the Vigories of Oden Tal. But what form will this demonic army take when it arrives in our world? In Sunnydale, Buffy Summers is casting about in her new life -- as school counselor, guardian of Dawn, best friend, keeper of Spike's sanity, and of course as Slayer -- hoping to find something, anything, that will give her back that "finished" feeling. A demonic army with a dragon at its head is so not what she needs right now. And in L.A., Angel and Gunn -- each man pining for a woman he can never have, for a time that will never be what it was -- stumble across a raging battle at a museum. Angel is astonished to see the inter-dimensional fugitive Jhiera again...and to have the same feelings for her come rushing back to the surface. Jhiera escapes, and the Angel Investigations gang starts poking around, trying to discover why the Oden Tal woman was at the museum -- a museum featuring an archaeological exhibit of the terra-cotta army of samurai figurines that were found in a Chinese emperor's tomb. They are a marvel to behold, and both Los Angeles and Sunnydale are lucky enough to host the exhibit. That can't be a coincidence...can it? When the frozen hell dimension is thawed and opened, a demonic army will enter this world through the Hellmouth. The various creatures will occupy the forms of the ready-made army, and a war will be waged.
