of undead monsters to keep at bay. There are plenty of guides out there about how to survive the zombie apocalypse. All of them assume readers are young, fit, and unencumbered by children. In that scenario, the only living humans left will be smug, outdoorsy Millennials. That's hell on earth, even without the zombies. Only *Dead on the Inside* is the answer for the rest of us. Written by professional comedy writer and amateur father-of-four James Breakwell (@XplodingUnicorn), *Only Dead on the Inside* blends traditional parenting advice

with zombie survival tips, bringing together two totally unrelated genres in a book no one asked for but everyone needs. This step-by-step manual teaches you how to raise happy, healthy children in a world overrun by the undead. Motivated moms and dads want it all, and that won't change at the end of the world. There's no reason you can't be a zombie killing machine AND parent of the year, but you have to work for it. If you want to make sure your family is apocalypse-ready, *Only Dead on the Inside* is your best and only chance at survival. No

pressure, but if you don't read this book, your children will die.

groundbreaking book demonstrates how the six practices of high-impact nonprofits apply to donors aiming to advance social causes. Rather than focus on the mechanics of effective grantmaking, reporting, or evaluation, this book instead proposes that donors can become proactive catalysts for change by rising to meet the challenges of our increasingly interdependent world.

Key principles include: going beyond check writing/traditional volunteering; advocating for change; leveraging business; forging peer networks; empowering individuals; leading adaptively; and developing learning organizations. Contains robust case studies depicting every type of philanthropy (corporate, community, operating, specialized, and large private and family foundations) Includes

easy to use "Key Takeaways" tailored for donors at the "beginner" and "experienced" levels of catalytic philanthropy Authors are internationally-acclaimed philanthropic, nonprofit, and corporate social responsibility strategy experts who frequently speak and train on high-impact philanthropy In good economic times or bad, this book provides guidance for givers to increase the impact of

---

their charitable resources and go beyond check-writing to help solve problems and change the world.

An updated edition of a groundbreaking book on best practices for nonprofits What makes great nonprofits great? In the original book, authors Crutchfield and McLeod Grant employed a rigorous research methodology derived from for-profit books like Built

to Last. They studied 12 nonprofits that have achieved extraordinary levels of impact—from Habitat for Humanity to the Heritage Foundation—and distilled six counterintuitive practices that these organizations use to change the world.

Features a new introduction that explores the new context in which nonprofits operate and the consequences for these organizations Includes a new chapter on applying the Six Practices to small,

local nonprofits, including some examples of these organizations Contains an update on the 12 organizations featured in the original book—how they have fared, what they've learned, and where they are now in their growth trajectory This book has lessons for all readers interested in creating significant social change, including nonprofit managers, donors, and volunteers.

historical events in  
Virginia during the  
War of 1812,  
examining how  
Virginia's militia  
was organized,  
supplied, and  
financed by the  
Commonwealth. The  
book discusses the

militia's  
unpreparedness in  
training, its lack of  
adequate ordnance and  
arms, and how that  
affected its ability  
to defend the state  
against British  
incursions during the  
war. Political  
activities of the  
Virginia legislature  
and the U.S. Congress  
are examined with  
special reference to  
how the state  
financed the war and  
its relationship with  
the U.S. government.

The book includes the  
fascinating story of  
nearly two thousand  
former slaves who  
fled to British ships  
to fight in Virginia  
with British forces.

Tennis is a game that evolves. One day, in the not-too-distant future, someone or a group of individuals will introduce a style of play that is so unique that it revolutionizes the game. This new thing will take a while for the rest of the field to adapt and/or to defend against. Those who grasp it will narrow the playing

field and find themselves competing among themselves for the top spots. It will be obvious to all, but for some unknown reason, these players will not play like the others. They will possess something extra that separates them from their opponents, making them harder to beat. No matter what this new thing maybe, a closer examination will still and always revert to an

---

improvement in accomplishing the core standards of the game, which are clearing the net and make the ball land deep on the other side of the court using a heavy spin on the ball to cause the ball to land within the court boundaries. One-Shot Tennis (OST) is a new, revolutionary concept of tennis development that combines cognitive learning, motor skill development, and muscle memory within premeditated patterns of progression that are designed to assist coaches and players in the simultaneous development of the physical, mental, and emotional levels needed to play the game. One-Shot Tennis Set Point is created to lay the foundation to holistically developing the individual by increasing their solid play and assisting in the coaching development process of every aspect of the game simultaneously through a systematic nonlinear approach. OST's nonlinear coaching system works to developmental, physical, muscle memory, emotional, and other aspects of development simultaneously.

shown us that the vision of God in today's churches in relation to evil and suffering is often frivolous. Against the overwhelming weight and seriousness of the Bible, many Christians are choosing to become more shallow, more entertainment-oriented, and therefore irrelevant in the face of massive suffering. In Suffering and the

Sovereignty of God, contributors John Piper, Joni Eareckson Tada, Steve Saint, Carl Ellis, David Powlison, Dustin Shramek, and Mark Talbot explore the many categories of God's sovereignty as evidenced in his Word. They urge readers to look to Christ, even in suffering, to find the greatest confidence, deepest comfort, and sweetest fellowship they have

ever known.
