Ben Brooksby is a fifth-generation farmer from St Helens Plains in western Victoria. When he was younger, he struggled with anxiety and other mental health issues, as do so many others in rural communities. A simple social media post helped him to turn things around. After he shared a photo on Instagram showing himself naked in a truck full of lentils, he received a huge response, with other farmers wanting to share their own photos - and their stories. As the Naked Farmer movement grew, Ben met people from all around the country who wanted to get naked for mental health. As they got their kits off, they also

opened up about their struggles.

This is a heartwarming, moving and candid collection of stories of the challenges our farmers are facing, and the way these communities are banding together in response.

Herb Uhl, credited to be the inventor of the ATV by designing the Honda Trail 50, thus opening up the industry-wide ATV segment of motorcycles. He now proposes a new model of motorcycles targeted at riders of a shorter stature seeking a quality ride. Author and inventor Herb Uhl presents an overwhelming case for an untapped market segment of small motorcycles designed and engineered motorcycle ergonomics culminating in a high-end small motorcycle for women and men of short stature. The idea for upscale motorcycles for short riders with fat wallets

in search of small street bikes to invest their expendable income on is ripe for the picking.

We ' re told that the future will be brighter. But what if human happiness really lies in the past? Hobart, 2022: a city with a declining population, in the grip of a dark recession. A rusty ship sails into the harbour and begins to unload its cargo on the site of the once famous but now abandoned Gallery of Future Art, known to the world as GoFA. One day the city ' s residents are awoken by a high-pitched sound no one has heard for two generations: a factory whistle. GoFA ' s owner, world-famous billionaire Dundas Faussett, is creating his most ambitious installation yet. He ' s going to defeat technology ' s dominance over our lives by establishing a new Year Zero: 1948. Those

whose jobs have been destroyed by Amazon and Uber and Airbnb are invited to fight back in the only way that can possibly succeed: by living as if the internet had never been invented. The hold of Bezos, Musk, Zuckerberg and their ilk starts to loosen as the revolutionary example of Factory 19 spreads. Can nostalgia really defeat the future? Can the little people win back the world? We are about to find out. ‘ Like Orwell, of whom he has written so brilliantly, Dennis Glover ’ s work is charged with courage, intelligence and purpose. He is the complete writer, and one made for our times. ’ —Don Watson ‘ Savagely hilarious and unlike anything else you ’ ll read this year. It boils with the anger of the present moment. ’ —Rohan Wilson

Whiskey Days is the second full-length collection of memoir-driven works by Kentucky native Tommy Gaffney. Both the short stories and the poems in this volume invoke the emotional high wire of an author writing without a net, veering between the humorous and the abysmally raw that lay on either side of his narratives. The results this time show the growing maturity of both the scribe and the man and offer an intelligent conversation with the bar room professor on the stool beside you.

Each Haynes manual provides specific and detailed instructions for performing everything from basic maintenance and troubleshooting to a complete overhaul of the machine, in this case the Honda CBR1000RR Fireblade, model years 2004 through 2007. Do-it-yourselfers will find this service and repair manual more comprehensive than the factory manual, making it an indispensable part of their tool box. A typical Haynes manual covers: general information; troubleshooting; lubrication and routine maintenance; engine top end; engine lower end; primary drive, clutch and external shift mechanism; transmission and internal shift mechanism; engine management system; electrical system; wheels, tires and drivebelt; front suspension and steering; rear suspension; brakes; body, and color wiring diagrams. An index makes the manual easy to navigate.

This extraordinary account of a remarkable journey made in 1933, through Iraq, Iran and Baluchistan (now part of Pakistan) to India is packed full of wonder, adventure, determination and love of travel and motorcycles. But what really sets this book apart are the wonderful descriptions of the people and cultures, now nearly forgotten, yet still hugely relevant in today's age: all brought evocatively to life by the stunning photos from

1933. At that time, the idea of travelling to India on a motorcycle through the Middle East was considered impossible; there were often no roads, not even any paths, and they were attempting to cross the burning deserts in the middle of August, on a tiny two-stroke motorcycle with barely enough power for the bike and rider, let alone a pillion passenger! This book is more than a fantastic adventure; it also offers some perceptive insights into the peoples, places and cultures of the time, as well as being full of drama, both personal and mechanical, as the motorcycle is urged on across the shimmering sands. A true window on the past — and a book which is definitely a 'must have' for all travel and motorcycle enthusiasts.

The Long Way to Vladivostok
For decades the crown jewels of Japan's

postwar manufacturing industry, motorcycles remain one of Japan's top exports. Japan's Motorcycle Wars assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by misplaced

loyalties, technical disasters, and brutal competition.

The True Adventures of Toopsie & Emilies

Riding a motorbike in howling high winds and freezing temperatures to reach Nordkapp, the northern most point of Europe could have been disastrous. But for Shirley Hardy-Rix and Brian Rix it was one of the best days of their lives. This is what the well-travelled retired couple had hoped for when they planned to fill a gap in their riding experience and take on Scandinavia, the old Silk Road in Central Asia and the world's largest country, Russia. They shipped their motorcycle to Greece and spent the next six months riding to the northern most tip of Europe and then taking the long road to Vladivostok in Russia. From freezing cold to the searing heat of 47 ° C in the deserts of Central Asia, Shirley and Brian pushed the

boundaries, tackling icy roads and gravel tracks. They rode through water crossings and deep sand drifts to reach some of the most beautiful cities on the Silk Road. The Long Way to Vladivostok takes readers through some of the world's most glorious and remote areas, sharing the joys and hardships of life on the road. Experience their travels from the comfort of your armchair or be inspired to pack your bags and hit the road.
