“ Joe Feldman shows us how we can use grading to help students become the leaders of their own learning and lift the veil on how to succeed. . . . This must-have book will help teachers learn to implement improved, equity-focused grading for impact. ” --Zaretta Hammond, Author of Culturally Responsive Teaching & The Brain Crack open the grading conversation Here at last—and none too soon—is a resource that delivers the research base, tools, and courage to tackle one of the most challenging and emotionally charged conversations in today ’ s schools: our inconsistent grading practices and the ways they can inadvertently perpetuate the achievement and opportunity gaps among our students. With Grading for Equity, Joe Feldman cuts to the core of the conversation, revealing how grading practices that are accurate, bias-resistant, and motivational will improve learning, minimize grade

inflation, reduce failure rates, and become a lever for creating stronger teacher-student relationships and more caring classrooms. Essential reading for schoolwide and individual book study or for student advocates, Grading for Equity provides A critical historical backdrop, describing how our inherited system of grading was originally set up as a sorting mechanism to provide or deny opportunity, control students, and endorse a “ fixed mindset ” about students ’ academic potential—practices that are still in place a century later A summary of the research on motivation and equitable teaching and learning, establishing a rock-solid foundation and a “ true north ” orientation toward equitable grading practices Specific grading practices that are more equitable, along with teacher examples, strategies to solve common hiccups and concerns, and evidence of effectiveness Reflection tools for facilitating individual or group engagement and understanding As Joe writes, “ Grading practices are a mirror not just for students, but for us as their teachers. ” Each one of us should start by asking, “ What do my grading practices say about who I am and what I believe? ” Then, let ’ make the choice to do things differently . . with Grading for Equity as a dog-eared reference.

12th IFIP WG 12.5 International Conference and Workshops, AIAI 2016, Thessaloniki, Greece, September 16-18, 2016, Proceedings Disha Publications This Special Issue is a collection of selected papers from the 3rd European Congress on Imaging Infection and Inflammation (www.nuclearmedicinediscovery.org/event.s.asp) and results of consensus sessions by major experts in the field including Nuclear Medicine physicians, Radiologists, Clinicians and microbiologists. The Journal of Clinical Medicine (JCM) provides an opportunity to publish data that were presented and discussed at the meeting in Rome in December 2019. One of the extremely important missions of this meeting was to present the recently published guidelines on diagnostic imaging of infections, and find a consensus agreement on some still controversial issues. With this in mind, the aim of the present Special Issue is to publish selected papers

on: • Overviews on published guidelines • Review on recent development of diagnostic imaging of infections • Consensus document on the use of FDG and WBC in infections • Consensus document on the requirement for new radiopharmaceuticals for imaging bacteria
