This collection presents new investigations into the role of heritage languages and the correlation between culture and language from a pedagogic and cosmopolitan point of view.

*Resources in Education BPP Learning Media*

The implementation of effective control systems can help to achieve a wide range of benefits, not

---

least in terms of real cost-savings. Education plays a vital role in ensuring continued success and its importance is well recognized by IFAC with a specifically designated technical committee in this area. This invaluable publication brings together the results of international research and experience in the latest control education techniques, as presented at the most recent symposium. Information on course curricula is

presented, as well as teachware, including software and laboratory experimental apparatus. *Educational Change in South Africa* CRC Press The only review book of its kind, David M. Yousem's Non-Interpretive Skills prepares you for exam questions on every aspect of radiology that does not involve reading and interpreting images: comm

unication, quality and safety, ethics, leadership, data management, business principles, analytics, statistics, and more. Ideal for residents and practitioners alike, this unique study tool contains hundreds of questions, answers, and rationales that cover the entire range of NIS content on

---

the credentialing boards and MOC exams. Your exam preparation isn't complete without it! Exclusive test preparation on every NIS area, including business, ethics, safety, quality improvement, resuscitation techniques, and medications used by radiologists. 600 multiple-choice

questions with answers and rationales provide a practical and solid foundation for exams and clinical practice. Author David M. Yousem, MD, MBA and his colleagues at the Johns Hopkins Department of Radiology share years of expertise in radiology education, quality assurance, and business

topics. A single, easy-to-use source for thorough review of the NIS topics you'll encounter on exams and in your radiology practice. **Case Review E-Book** Disha Publications This Special Issue is a collection of selected papers from the 3rd European Congress on Imaging Infection and Inflammation ( [www.nuclearmedicineandradiologydiscovery.org/events.asp](http://www.nuclearmedicineandradiologydiscovery.org/events.asp)) and results of consensus sessions by major experts in the field including Nuclear Medicine physicians, Radiologists, Clinicians and microbiologists. The Journal of Clinical Medicine (JCM) provides an opportunity to publish data that were presented and discussed at the meeting in Rome in December 2019. One of the extremely important missions of this meeting was to present the recently published guidelines on diagnostic imaging of infections, and find a consensus agreement on some still controversial issues. With this in mind, the aim of the present Special Issue is to publish selected papers on:

- Overviews on published guidelines • Review on recent development of diagnostic imaging of infections • Consensus document on the use of FDG and WBC in infections • Consensus document on the requirement for new radiopharmaceuticals for imaging bacteria
