The C3 Corvette ' s swooping fenders and unmistakable body style capture the imagination and make it an enduring classic. About a half-million Corvettes were sold between 1968 and 1982, and the unique combination of Shark style, handling, and V-8 performance is revered. Some early C3s, built between 1968 and 1974, are simply too rare and valuable to

be modified, particularly the big-block cars. The later Corvettes, built from 1975 to 1982, came with low-compression engines that produced anemic performance. The vast majority of these Corvettes are affordable, plentiful, and the ideal platform for a high-performance build. Corvette expert, high-performance shop owner, and builder Chris Petris shows how to transform a mundane C3 into an outstanding high-performance car. Stock Corvettes of this generation carry antiquated brakes, steering, suspension, and anemic V-8 engines with 165 to 220 hp. He covers the installation of top-quality aftermarket suspension components, LS crate engines, big brakes, frame upgrades, and improved driveline parts. The book also includes popular upgrades to every component group, including engine, transmission, differential, suspension, steering, chassis, electrical system, interior, tires, wheels, and more. Whether you are mildly modifying your Corvette for greater comfort and driveability or substantially modifying it for vastly improved acceleration, braking, and handling, this book has insightful instruction to help you reach your goals. No other book provides as many popular how-to projects to comprehensively transform the C3 Corvette into a 21st-century sports car.

With the help of the Discovery Channel, undersea explorer Barry Clifford fields an expedition that includes some of America's top experts in shipwreck recovery. Their goal is to find, identify, and

possibly excavate the remains of history's most famous pirate ship: Captain Kidd's Adventure Galley. The search takes them to a tiny island off the coast of Madagascar, Sainte Marie, known to historians as the model for Robert Louis Stevenson's Treasure Island. Return to Treasure Island and the Search for Captain Kidd weaves together two exciting stories: the saga of Captain William Kidd, one of history's most baffling and mysterious figures, and Barry Clifford's obsessive quest to find perhaps the most notorious pirate ship of all time. The result is a tale of treasure and adventure that ends in death -- both Kidd's and, three hundred years later, that of a rival archaeologist who attempts to stop Clifford's expedition.

The second in a series of highly practical, hands on, step-by-step photographic manuals, Replacing Your Boat's Electrical System fills a gap in the market for the DIY boat builder and repairer. It is a subject covered only in piecemeal fashion by the yachting press, which, like general boat repair manuals, can't go into the level of detail Micke Westin does. This is a visual, hand-holding guide, dwelling on the details as it explains each procedure rather than focussing on the theory (which is relegated to an appendix, for those who wish to go further).

Diagnostics, or fault finding, is a fundamental part of an automotive technician's work, and as automotive systems become increasingly complex there is a greater need for good diagnostic skills. Advanced Automotive Fault Diagnosis is the only book to treat automotive diagnostics as a science rather than a check-list procedure. Each chapter includes basic principles and examples of a vehicle system followed by the appropriate diagnostic techniques, complete with useful diagrams, flow charts, case studies and self-assessment questions. The book will help new students develop diagnostic skills and help experienced technicians improve even further. This new edition is fully updated to the latest technological developments. Two new chapters have been added – On-board diagnostics and Oscilloscope diagnostics – and the coverage has been matched to the latest curricula of motor vehicle qualifications, including: IMI and C&G Technical Certificates and NVQs; Level 4 diagnostic units; BTEC National and Higher National qualifications from Edexcel; International Motor Vehicle qualifications such as C&G 3905; and ASE certification in the USA.
