When sadness is a symptom, what is its root? From where does loneliness fester? Between beauty and a kind of darkness, between falling and falling apart, Bear navigates life's trickier slopes. With tender simplicity, this book tells a story of moments of defeat and revelation, quiet triumph and inescapable despair - and dares to make visible the pathos within us all. Diagnostics, or fault finding, is a fundamental part of an automotive technician's work, and as automotive systems become increasingly

complex there is a greater need for good diagnostic skills. *Advanced Automotive Fault Diagnosis* is the only book to treat automotive diagnostics as a science rather than a check-list procedure. Each chapter includes basic principles and examples of a vehicle system followed by the appropriate diagnostic techniques, complete with useful diagrams, flow charts, case studies and self-assessment questions. The book will help new students develop diagnostic skills and help experienced technicians improve even further. This new edition is fully updated to the latest technological developments. Two new chapters have been added – On-board diagnostics and Oscilloscope diagnostics – and the coverage has been matched to the latest curricula of motor vehicle qualifications, including: IMI and C&G Technical Certificates and NVQs; Level 4 diagnostic units; BTEC National and Higher National qualifications from Edexcel; International Motor Vehicle qualifications such as C&G 3905; and ASE certification in the USA.

The second in a series of highly practical, hands on, step-by-step photographic manuals, *Replacing Your Boat's Electrical System* fills a gap in the market for the DIY boat builder and repairer. It is a subject covered only in piecemeal fashion by the yachting press, which, like general boat repair manuals, can't go into the level of detail Micke Westin does. This is a visual, hand-holding guide, dwelling on the details as it explains each procedure rather than focussing on the theory (which is relegated to an appendix, for those who wish to go further).
