The Shadow on the Doorstep Collins & Brown
Vampires have always lived in Eastern Europe. But with the fall of the Soviet Union, they began to spread across the continent, then the world, turning whole populations into vampires--or human cattle. Having overrun India, the far East, and the great cities of North and South America, the forces of Night are now spreading into the countryside to consolidate their conquest. In a town on the New Jersey shore, the vampires have just arrived, along

with their human henchmen, the cowboys, who round up human cattle for the overlords in return for the promise of eternal life---later. For the vampires wish only a few of their own kind to rule, and feed. The rest of humanity are to be helpless herds, the source of the blood of life. Falsely accused of abuse, Father Dan is drunk in a basement waiting for the end. His superior has betrayed the local Catholic congregation and become a vampire. Sister Carolyn has become a formidable killer of cowboys and vampires. Dan's niece, escaped from the conquest of New York, has made her way south to find him. Brought together by Rabbi Zev Wolpin, who is shaken by the vampires' fear of the cross and holy water, they plan their resistance. Against all odds, they discover that there just might be a way for humanity to really fight back. But first they will have to kill the vampire king of New York. "The oldest and strongest emotion of mankind is fear, and the oldest and strongest kind of fear is fear of the unknown." --H. P. LOVECRAFT, "Supernatural Horror in Literature"

Howard Phillips Lovecraft forever changed the face of horror, fantasy, and science fiction with a remarkable series of stories as influential as the works of Poe, Tolkien, and Edgar Rice Burroughs. In Tales of the Cthulhu Mythos, a pantheon of horror and fantasy's finest authors pay

In Thomas Ligotti's first nonfiction outing, an examination of the meaning (or meaninglessness) of life through an insightful, unsparing argument that proves the greatest horrors are not the products of our imagination but instead are found in reality. "There is a signature motif discernible in both works of philosophical pessimism and supernatural horror. It may be stated thus: Behind the scenes of life lurks something pernicious that makes a nightmare of our world." His fiction is known to be some of the most terrifying in the genre of supernatural horror, but Thomas Ligotti's first nonfiction book may be even scarier. Drawing on philosophy, literature, neuroscience, and other fields of study, Ligotti takes the penetrating lens of his imagination and turns it on his audience, causing them to

grapple with the brutal reality that they are living a meaningless nightmare, and anyone who feels otherwise is simply acting out an optimistic fallacy. At once a guidebook to pessimistic thought and a relentless critique of humanity's employment of self-deception to cope with the pervasive suffering of their existence, *The Conspiracy against the Human Race* may just convince readers that there is more than a measure of truth in the despairing yet unexpectedly liberating negativity that is widely considered a hallmark of Ligotti's work. In the midst of spiraling ecological devastation, multispecies feminist theorist Donna J. Haraway offers provocative new ways to reconfigure our relations to the earth and all its inhabitants. She eschews referring to our current epoch as the Anthropocene, preferring to conceptualize it as what she calls the Chthulucene, as it more aptly and fully

describes our epoch as one in which the human and nonhuman are inextricably linked in tentacular practices. The Chthulucene, Haraway explains, requires sym-poiesis, or making-with, rather than auto-poiesis, or self-making. Learning to stay with the trouble of living and dying together on a damaged earth will prove more conducive to the kind of thinking that would provide the means to building more livable futures. Theoretically and methodologically driven by the signifier SF—string figures, science fact, science fiction, speculative feminism, speculative fabulation, so far—*Staying with the Trouble* further cements Haraway's reputation as one of the most daring and original thinkers of our time.
