The mammalian genome is constantly challenged by exogenous and endogenous threats. Although much is known about the mechanisms that maintain genome integrity, little is known about the applications of this knowledge to combat human disease. The past 20 years has witnessed extensive research and progress in this area and scientists started to design new therapies harnessing individual genetic differences among patients to combat degenerative disorders and cancer. We summarize these advancements and discuss perspectives for the future

of personalized medicine.

This major revision to United States Army publication, Army Regulation AR 600-20 Army Command Policy July 2020, prescribes the policies and responsibilities of command, which include the Army Ready and Resilient Campaign Plan, military discipline and conduct, the Army Military Equal Opportunity (MEO) Program, the Army Harassment Prevention and Response Program, and the Army Sexual Harassment/Assault Response and Prevention (SHARP) Program. This regulation implements DoDI 1020.03, DoDI 1300.17, DoDI 1325.02, DoDI 1325.06; DoDI 1342.22; DoDI 5240.22, DoDI 5240.26, DoDI 5505.18; DoDI 6495.02; DoDI 6495.03, DoDD 1350.2, DoDD 6495.01, DoDD 5205.16 and DoDD 7050.06. Also, it prescribes the policy and responsibility of command, which include the Army Ready and Resilient Campaign Plan, military discipline and conduct, the Army Equal Opportunity Program, and the Army Sexual Harassment/Assault Response and Prevention Program. The 30-day advanced publication requirement has been waived because the revision implements previously published law, DoD directives and instructions, and Army directives that need to be consolidated and communicated to the field as soon as possible. This regulation applies to the Regular Army, the Army National Guard/Army National Guard of the United States, and the U.S. Army Reserve, unless otherwise stated. It also applies to all assigned, attached, or operationally controlled U.S. Army Corrections Command personnel, and all Army Corrections System prisoners incarcerated in Army Corrections System facilities. Chapters 6 and 7 and appendix E apply to members of the Army National Guard of the United States when on active duty Title 10 orders, for 30 days or more. In all other cases, members of the Army National Guard are governed by regulations issued by the Chief, National Guard Bureau consistent with Chief, National Guard Bureau's authorities under 32 USC 110, 10 USC 10503, and DoDD 5105.77. It also applies where stated to Department of the Army Civilians. Portions of this regulation that prescribe specific conduct are punitive, and violations of these provisions may subject offenders to nonjudicial or judicial action under the Uniform Code of Military Justice. The equal opportunity terms found in the glossary are applicable only to uniformed personnel. AR 690-600 and AR 690-12 contains similar terms that are applicable to Department of the Army Civilians.

How did the affliction we now know as insanity move from a religious phenomenon to a medical one? How did social class, gender, and ethnicity affect the experience of mental trauma and the way psychiatrists diagnosed and treated patients? In answering these questions, this important volume mines the rich and unusually detailed records of one of Germany's first modern insane asylums, the Eberbach Asylum in the duchy of Nassau. It is a book on the historical relationship between madness and modernity that both builds upon and challenges Michel Foucault's landmark work on this topic, a bold study that gives generous consideration to madness from the patient's perspective while also shedding new light on sexuality, politics, and antisemitism in nineteenth-century Germany. Drawing on the case records of several hundred asylum patients, *Sex, Religion, and the Making of Modern Madness* reconstructs the encounters of state officials and medical practitioners with peasant madness and deviancy during a transitional period in the history of both Germany and psychiatry. As author Ann Goldberg explains, this era witnessed the establishment of psychiatry as a legitimate medical specialty during a time of social upheaval, as Germany underwent the shift toward a capitalist order and the modern state. Focusing on such "illnesses" as religious madness, nymphomania, and masturbatory insanity, as well as the construct of Jewishness, she probes the daily encounters in which psychiatric categories were applied, experienced, and resisted within the settings of family, village, and insane asylum. The book is a model of microhistory, breaking new ground in the historiography of psychiatry as it synthetically applies approaches from "the history of everyday life," anthropology, poststructuralism, and feminist studies. In contrast to earlier, anecdotal studies of "the asylum patient," Goldberg employs diagnostic patterns to illuminate the ways in which madness--both in psychiatric practice and in the experience of patients--was structured by gender, class, and "race." She thus examines both the social basis of rural mental trauma in the Vormärz and the political and medical practices that sought to refashion this experience. This study sheds light on a range of issues concerning gender, religion, class relations, ethnicity, and state-building. It will appeal to students and scholars of a number of disciplines.

Implement machine learning and deep learning methodologies to build smart, cognitive AI projects using Python Key FeaturesA go-to guide to help you master AI algorithms and concepts8 real-world projects tackling different challenges in healthcare, e-commerce, and surveillanceUse TensorFlow, Keras, and other Python libraries to implement smart AI applicationsBook Description This book will be a perfect companion if you want to build insightful projects from

leading AI domains using Python. The book covers detailed implementation of projects from all the core disciplines of AI. We start by covering the basics of how to create smart systems using machine learning and deep learning techniques. You will assimilate various neural network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the transfer learning technique in the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate Captchas. Later you will train and build autonomous vehicles to self-drive using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart models for tackling any kind of AI problems without any hassle. What you will learnBuild an intelligent machine translation system using seq-2-seq neural translation machinesCreate AI applications using GAN and deploy smart mobile apps using TensorFlowTranslate videos into text using CNN and RNNImplement smart AI Chatbots, and integrate and extend them in several domainsCreate smart reinforcement, learning-based applications using Q-LearningBreak and generate CAPTCHA using Deep Learning and Adversarial Learning Who this book is for This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Knowledge of Python programming and a familiarity with basic machine learning and deep learning concepts are expected to help you get the most out of the book

If there is only one book about Mohandas Karamchand Gandhi that you need to read today, make *Gandhian Thought*, New World, New Dimensions by Ravindra Kumar be the book. There are many Gandhian scholars around the world but Kumar is peerless. What sets Kumar apart from the other scholars is that like Gandhi he is Indian, and he understands the culture and customs behind the teachings and the philosophy. One can never study Gandhi and try to separate him from his ethnology. He is a noteworthy researcher. Kumar's interpretation of Gandhi and his ideas is outstanding. Kumar, an educator who has authored over a hundred books, has emerged as one of the great thinkers of our time, and a leading Gandhian scholar. In this book he articulates on Satyagraha, the Sustainable Culture of Peace and how the Gandhian philosophy applies in current international conflicts, Sudan, Myanmar, Iraq, Iran, and other countries. The book also addresses the fundamental question, is Gandhi relevant today? This book should be a required reading for all individuals who are interested in peace and the Gandhian theory. This book is a necessary read.

History that doesn't suck: Smart, crude, and hilariously relevant to modern life. Those who don't know history are doomed to repeat it. Too bad it's usually boring as sh\*t. Enter *The Captain*, the ultimate storyteller who brings history to life (and to your life) in this hilarious, intelligent, brutally honest, and crude compendium to events that happened before any of us were born. The entries in this compulsively readable book bridge past and present with topics like getting ghosted, handling haters, and why dog owners rule (sorry, cat people). Along the way you'll get a glimpse of Edith Wharton's sex life, dating rituals in Ancient Greece, catfishing in 500 BC, medieval flirting techniques, and squad goals from Catherine the Great. You'll learn why losing yourself in a relationship will make you crazy--like Joanna of Castile, who went from accomplished badass to Joanna the Mad after obsessing over a guy known as Philip the Handsome. You'll discover how Resting Bitch Face has been embraced throughout history (so wear it proudly). And you'll see why it's never a good idea to f\*ck with powerful women--from pirate queens to diehard suffragettes to Cleo-f\*cking-patra. People in the past were just like us--so learn from life's losers and emulate the badasses. *The Captain* shows you how.

When he became a commercial pilot at age nineteen, Bill Grenier never imagined that one day he'd be captain of the largest commercial plane the world had seen, flying the highest profile routes of a proud national carrier. Even less could he have

---

imagined, at age nineteen and with barely a penny to his name, that he'd one day be a wealthy man. But he would ultimately control an empire worth nearly a billion dollars. With liberal doses of wit and humour, *Miles to Millions* shows what a little luck, lots of perseverance, and an appetite for adventure can do. From boarding house to boardroom, from cradle to cockpit, Grenier offers a fascinating story of success both as a commercial pilot and as a businessman. Filled with anecdotes you'd never expect from a single career from acting as repo man taking planes for payment to saving hundreds of passengers in a stricken 747 with a collapsed co-pilot *Miles to Millions* is a high-flier of a story bound to entertain both aviation experts and enthusiasts alike.

*The Grace Walk Experience* Springer

Fought over the course of four years, the Civil War pitted countrymen against countrymen, North versus South, friend against friend, and brother against brother. The photographs within these pages document the war that united America as one. These rare shots were taken in the middle of the battlefield during the earliest days of photography. Selected from a collection of seven thousand original negatives, these historic photos capture nearly every aspect of Civil War life. Among these photos are images of camps sprawling across acres, soldiers at their battlements, firing of heavy artillery, the aftermath of battle, and the terror that these young men faced. See first-hand of Union and Confederate officers strategizing their next moves, and Abraham Lincoln addressing his Union commanders. Originally released from the private collection of Edward Bailey Eaton in 1907, this edition is a must have for any Civil War buff or historian. No collection can be considered complete without these photographs by Matthew Brady and Alexander Gardner, as well as the meticulous passages that put the images in illuminating context.
