Impeccably researched, and written with Charlotte Gray ' s unerring eye for personal and historical detail, Reluctant Genius tells the story of a man very different from his public image. Most of us think of Alexander Graham Bell as a white-bearded sage, but the young Alec Bell was a passionate and wild-eyed genius, a man given to fits of brilliance and melancholy. His technologies for photophones, tetrahedrals, flying machines and hydrodomes laid the groundwork for future achievement. And he adored his wife, Mabel, a beautiful, deaf young woman from a blueblood Boston family. Gray goes where no other writer has gone, delving deeply into Bell ' s personality and into his intense relationship with Mabel, whose background and temperament were a startling contrast to his own. Reluctant Genius takes us on an intimate journey into the golden age of invention and the vibrant life of a man whose work shaped our world.

Steam, and then cumbersome motor, tractors existed in small numbers before 1914, after which the need to produce more foods using less horse and man power saw the origins of the machine we know today. Thanks to mass production, Ford brought the price down to suit average farmers, and in the 1920s to 1940s numerous rivals brought in such novelties as diesel engines, pneumatic tyres, hydraulic implement lifts and even cost-effective all-wheel drive and weather protection. After the Second World-War, a strong new indigenous tractor industry was led by Ferguson, David Brown, Nuffield and Ford. This book highlights these developments and goes on to show the dramatic improvements of the 1950s and 1960s.

This Close to Happy is the rare, vividly personal account of what it feels like to suffer from clinical depression, written from a woman's perspective and informed by an acute understanding of the implications of this disease over a lifetime. Taking off from essays on depression she has written for The New Yorker and The New York Times Magazine, Daphne Merkin casts her eye back to her beginnings to try to sort out the root causes of her affliction. She recounts the travails of growing up in a large, affluent family where there was a paucity of love and of basics such as food and clothing despite the presence of a chauffeur and a cook. She goes on to recount her early hospitalization for depression in poignant detail, as well as her complex relationship with her mercurial, withholding mother. Along the way Merkin also discusses her early, redemptive love of reading and gradual emergence as a writer. She eventually marries, has a child, and suffers severe postpartum depression, for which she is again hospitalized. Merkin also discusses her visits to various therapists and psychopharmacologists, which enables her to probe the causes of depression and its various treatments. The book ends in the present, where the writer has learned how to navigate her depression, if not "cure" it, after a third hospitalization in the wake of her mother's death.
