Inspect Engine Belts Why Engine Belts Are Important Engine belts transfer rotational power from the crankshaft to the pulleys (sheaves) that drive the engine coolant circulating pump, one or more alternators and often the raw water pump. If the belt on the circulating pump fails, the engine cannot be operated. (If the raw water pump belt fails it may still be possible to rig up a gravity-fed ...

Inspect Engine Belts - MARINE DIESEL BASICS

The majority of Cummins 5.9 engines out there will take the GREEN

belt. However, there are a few circumstances where you may need the YELLOW belt. Look at the images below and focus on the alternator mounting configuration and match the pictures to your engine to determine which belt you need.
