## Motor-Mounts.com

Marine and industrial engine mounts are used to isolate

vibrations and shocks while reducing noise in mobile and stationary equipment. Our engine mounts are made with premium industrial grade materials which stay in service longer than cheaper mounts, prolonging the life of your equipment. Our most popular marine engine mounts (MM, DS, DH, DM) have an interlocking metal component which acts as a fail-safe protection device; this extends the service life of the mount while protecting your ...

Marine Engine Mounts | Rubber Vibration Isolators | Industrial

Marine engine mountings should be able to absorb the thrust of the propeller while holding the engine inline within the tolerances of the shaft coupling. We supply flexible engine mountings from R and D Marine, Vetus, Orbitrade Marine and Drive Force. To ensure that your engine is fixed securely, we recommended that flexible engine mounts are changed in

pairs, i.e. both front flexible mountings / both rear flexible mountings or all four flexible mountings.

The vibration dampers and engine mountings are used in motor boats, sailing boats and serve to damp and isolate

the engine vibrations. We supply our vibration dampers and engine mounts for newbuild vessels, re-

motorisations and to replace existing engine mounts. Cummins Marine Engine Mounts

Different Types of Motor Mounts. One of the last steps before dropping in a Cummins 4BT or 6BT into an

automotive swap is making sure the engine fits snugly in-between the motor mounts. Motor mounts act as both a

buffer between the engine and the chassis as well as fastening the motor to the vehicle. Getting the right

motor mount can make all of the difference as to how a 4BT or 6BT affects the drive of the vehicle.

Engine Mounts - Parts - Diesel Conversion

Recommended engine mounts for 6bt with 72c V-drive I have my Cummins 6BT M-180 engine out to replace the

72C V-drive. I am thinking of adding anti-vibration engine mounts to reduce noise and vibration. The engine

is currently mounted on aluminum engine brackets that bolt directly to the stringers. What brand do you all

reccommend?
