The Cummins N-14 is a great engine; quite possibly the best Cummins engine ever produced. These engines are the stuff dreams are made of if you're an old school guy looking for reliability. However, this engine does have some common problems most namely with the injectors. Read About the History Here

The N14 Celect was the first Cummins engine to feature an electronic injection system. The Celect fuel system produces systematic pressure throughout each injection cycle unlike the common rail fuel system of the 855, or older M11 or L10 models. Albeit the injectors are still cam actuated the ECM controls the metered flow of fuel to the injectors.

The Cummins N14 is a popular diesel engine prevalently installed in commercial trucks, RVs and agricultural and construction equipment. Built on a basic 855 cubic inch Cummins engine, the N14 was produced from the late 1980s until 2000, when it was discontinued and replaced with the ISX line of engines.
