Britain, in the mid 21st century. A new prime minister, Lev Solokov is elected. In spite of his Russian surname, he is the charismatic politician who, on the surface, appears to be just what Britain needs. But he's not what Gavin needs. Gavin is a Pustoy, a human who, among countless others, Solokov's researchers has declared a soulless, subhuman race. Solokov joins a dark lineage of genocidal tyrants that have gone before him. In synthesizing his own race to persecute others, perhaps he has succeeded in a horror more insidious than any of his forebears, especially as he appears to have done so with both overwhelming public blessing and encouragement. Or at least he would have, if not for the increasing din of the Pustoy protesting outside his offices.

Chosen at random owing to his position as a forefront campaigner for the rights of the Pustoy, Gavin is framed for a crime he didn't commit and is forced to go on the run, and so Solokov in one fell swoop kills any budding sympathy the people may have had for the Pustoy, and would appear to have silenced one of his loudest protestors. Just who are the Pustoy of this world? The persecutors or the persecuted? Will Gavin remain a hunted scapegoat? Is Solokov acting for the greater good; are the Pustoy really devoid of a soul? More importantly, how far away is this future, really? Phillippe Blenkiron's conceptual poetry collection demands these questions of the reader, whilst offering an unflinching examination of the human psyche, exploring the clouded moral hues between black and white, between right and wrong, that exist inside all of us. For fans of "1984," "Brave New World," and other greats of dystopian fiction, Philippe Blenkiron's debut poetry collection is shocking, unsettling, and closer to real-life than we dare admit...

Alternators and Starter Motors Cambridge University Press

In this book, Louise Revell examines questions of Roman imperialism and Roman ethnic identity and explores Roman imperialism as a lived experience based around the paradox of similarity and difference. Her case studies of

public architecture in several urban settings provides an understanding of the ways in which urbanism, the emperor and religion were part of the daily encounters of the peoples in these communities. Revell applies the ideas of agency and practice in her examination of the structures that held the empire together and how they were implicated within repeated daily activities. Rather than offering a homogenized "ideal type" description of Roman cultural identity, she uses these structures as a way to understand how these encounters differed between communities and within communities, thus producing a more nuanced interpretation of what it was to be Roman. Bringing an innovative approach to the problem of Romanization, Revell breaks from traditional models and cuts across a number of entrenched debates such as arguments about the imposition of Roman culture or resistance to Roman rule.

Hypnotic short stories of life in the Southwest that "emanate suspense, inspiring page-turning tension" (The Washington Times). A young woman is pushed, quite literally, to the edge on a desolate mountain pass. An orphaned brother and sister try to patch together an existence one stitch at a time. A cop suspects his kleptomaniac wife is stealing from other people—materially and emotionally. A girl waits to meet the sexual predator who has been calling her. A wily roadside hypnotist seems to possess a power both wonderful and strange. Set amid Indian reservations, uranium mills, and other locations across the American Southwest, these twelve stories by the author of

Yellowcake—chosen as one of the best books of the year by Kirkus Reviews—create a kaleidoscopic view of family, myth, love, landscape, and loss in a place where infinite skies and endless roads suggest a world of possibility, yet dreams are deceiving, like an oasis, just beyond reach.

The Modern Voice of an Irish Immigrant is author Imelda Cummins-DeMelkon's fascinating account of her experience growing up in Ireland as one of twelve children, and the struggle for autonomy and independence that led to her choice of immigration to the United States. The author speaks honestly of the conflicts she experienced as a child and the overzealous paternal control that dominated her young life. The reader follows the author's journey as it weaves between her experiences in both countries.

Ultimately, The Modern Voice of an Irish Immigrant shows us that through a deep commitment to personal growth, one can indeed emerge whole and able to enjoy a full and complete life. Among the highly interesting topics the book explores are the changing face of the Catholic Church in Ireland and the United States, the uniform wish of immigrants to recreate the best of the culture they left behind, what it is to be a conscientious parent, the reality of ill and aging parents, and finally, the joy of the discovery of a life that is worth the often challenging effort.

In 2010, the composer Gustav Mahler celebrates his one hundred fiftieth birthday. In Mahler Re-Composed, linguist George Cummins shares a collection of six interrelated essays that provide a fresh perspective on difficult questions familiar to Mahler lovers. Cummins, a teacher of Russian and Czech at Tulane University, brings a uniquely Czech perspective to the study of Mahler's personality and work. In his careful examination of the composer's life and work, Cummins begins with an introduction that provides a glimpse into Mahler the Czech and continues with an account of Mahler's conversion from Judaism to Catholicism while making his way to the Vienna Hofoper directorship. Cummins also takes a skeptical look at the legend of Mahler as an impotent, humorless neurotic and recreates the friendship between Strauss and Mahler two of the greatest musicians of the early twentieth century.

This is the first major collection of essays to look at the literature of the entire Tudor period, from the reign of Henry VII to death of Elizabeth I. It pays particularly attention to the years before 1580. Those decades saw, amongst other things, the establishment of print culture and growth of a reading public; the various phases of the English Reformation and process of political centralization that enabled and accompanied them; the increasing emulation of Continental and classical literatures under the influence of humanism; the self-conscious emergence of English as a literary language and determined creation of a native literary canon; the beginnings of English empire and the consolidation of a sense of nationhood. However, study of Tudor literature prior to 1580 is not only of worth as a context, or foundation, for an Elizabethan 'golden age'. As this much-needed volume will show, it is also of artistic, intellectual, and cultural merit in its own right. Written by experts from Europe, North America, and the United Kingdom, the forty-five chapters in *The Oxford Handbook to Tudor Literature* recover some of the distinctive voices of sixteenth-century writing, its energy, variety, and inventiveness. As well as essays on well-known writers, such as Philip Sidney or Thomas Wyatt, the volume contains the first extensive treatment in print of some of the Tudor era's most original voices.
