Gunmetal Magic Ace

In this spellbinding first novel in #1 New York Times bestselling author Ilona Andrews' s urban fantasy Hidden Legacy series, private detective Nevada Baylor navigates her way through an alternate world where dynasties, built on inherited wealth and magic, guide the course of humanity. Nevada Baylor runs a small-time detective agency in Houston, Texas, busting scammers, exposing cheaters, and dealing with petty criminals. She' s very good at her job—helped by a magical ability to sense when someone tells the truth or lies. But when she' s forced into accepting a case to find a radical pyrotechnic who can conjure heat and fire at will, Nevada knows she' s out of her league. To bring him to justice, she' ll have to join forces with someone who wields an even more dangerous power. Connor “ Mad ” Rogan is a former combat mage, a telekinetic singularly responsible for mass destruction in war-torn countries, and a member of one of the most powerful magic families in the world. His nephew has been kidnapped by the fugitive pyromaniac, and Nevada is his best chance at finding them both. But unlike Nevada, Connor could care less about societal law and order, and has no qualms about extinguishing his family' s enemy. Bound by their mission, Nevada and Connor clash over their tactics and moral beliefs, even as things undeniably heat up between them. But the man they' re chasing is involved in a darker conspiracy that threatens to destroy the city—and destabilize the balance of power the elite magical families use to influence every nation on Earth.

Alphas: Origins Hodder Education

An erotically charged, addictive thriller from the future queen of suspense. Living in Toronto for a year, Elena is leading the normal life she has always dreamed of, including a stable job as a journalist and a nice apartment shared with her boyfriend. As the lone female werewolf in existence, only her secret midnight prowls and her occasional inhuman cravings set her apart. Just one year ago, life was very different. Adopted by the Pack when bitten, Elena had spent years struggling with her resentment at having her life stolen away. Torn between two worlds, and overwhelmed by the new passions coursing through her body, her only option for control was to deny her awakening needs and escape. But now the Pack has called Elena home to help them fight an alliance of renegade werewolves who are bent on exposing and annihilating the Pack. And although Elena is obliged to rejoin her "family," she vows not to be swept up in Pack life again, no matter how natural it might feel. She has made her choice. Trouble is, she's increasingly uncertain if it's the right one. An erotically charged thriller, Bitten will awaken the voracious appetite of every reader, as the age-old battle between man and beast, between human and inhuman forces, comes to a head in one small town and within one woman's body.

Sustainable horticulture is gaining increasing attention in the field of agriculture as demand for the food production rises to the world community. Sustainable horticultural systems are based on ecological principles to farm, optimizes pest and disease management approaches through environmentally friendly and renewable strategies in production agriculture. It is a discipline that addresses current issues such as food security, water pollution, soil health, pest control, and biodiversity depletion. Novel, environmentally-friendly solutions are proposed based on integrated knowledge from sciences as diverse as agronomy, soil science, entomology, ecology, chemistry and food sciences. Sustainable horticulture interprets methods and processes in the farming system to the global level. For that, horticulturists use the system approach that involves studying components and interactions of a whole system to address scientific,

economic and social issues. In that respect, sustainable horticulture is not a classical, narrow science. Instead of solving problems using the classical painkiller approach that treats only negative impacts, sustainable horticulture treats problem sources.

Magic Triumphs Springer Science & Business Media  
This open access book examines health trajectories and health transitions at different stages of the life course, including childhood, adulthood and later life. It provides findings that assess the role of biological and social transitions on health status over time. The essays examine a wide range of health issues, including the consequences of military service on body mass index, childhood obesity and cardiovascular health, socio-economic inequalities in preventive health care use, depression and anxiety during the child rearing period, health trajectories and transitions in people with cystic fibrosis and oral health over the life course. The book addresses theoretical, empirical and methodological issues as well as examines different national contexts, which help to identify factors of vulnerability and potential resources that support resilience available for specific groups and/or populations. Health reflects the ability of individuals to adapt to their social environment. This book analyzes health as a dynamic experience. It examines how different aspects of individual health unfold over time as a result of aging but also in relation to changing socioeconomic conditions. It also offers readers potential insights into public policies that affect the health status of a population.

This book answers key questions about environment, people and their shared future in deltas. It develops a systematic and holistic approach for policy-orientated analysis for the future of these regions.

It does so by focusing on ecosystem services in the world's largest, most populous and most iconic delta region, that of the Ganges-Brahmaputra delta in Bangladesh. The book covers the conceptual basis, research approaches and challenges, while also providing a methodology for integration across multiple disciplines, offering a potential prototype for assessments of deltas worldwide. *Ecosystem Services for Well-Being in Deltas* analyses changing ecosystem services in deltas; the health and well-being of people reliant on them; the continued central role of agriculture and fishing; and the implications of aquaculture in such environments. The analysis is brought together in an integrated and accessible way to examine the future of the Ganges Brahmaputra delta based on a near decade of research by a team of the world's leading scientists on deltas and their human and environmental dimensions. This book is essential reading for students and academics within the fields of Environmental Geography, Sustainable Development and Environmental Policy focused on solving the world's most critical challenges of balancing humans with their environments. From award-winning author, Ilona Andrews, an all-new novel set in the New York Times #1 bestselling *Kate Daniels World* and featuring Julie Lennart-Olsen, Kate and Curran's ward. Atlanta was always a dangerous city. Now, as waves of magic and technology compete for supremacy, it's a place caught in a slow apocalypse, where monsters spawn among the crumbling skyscrapers and supernatural factions struggle for power and survival. Eight years ago, Julie Lennart left Atlanta to find out who she was. Now she's back with a new face, a new

magic, and a new name—Aurelia Ryder—drawn by the urgent need to protect the family she left behind. An ancient power is stalking her adopted mother, Kate Daniels, an enemy unlike any other, and a string of horrifying murders is its opening gambit. If Aurelia's true identity is discovered, those closest to her will die. So her plan is simple: get in, solve the murders, prevent the prophecy from being fulfilled, and get out without being recognized. She expected danger, but she never anticipated that the only man she'd ever loved could threaten everything. One small misstep could lead to disaster. But for Aurelia, facing disaster is easy; it's relationships that are hard.

*Burn for Me* Springer

This book addresses the fundamental importance of the proper assessment and treatment of sexual disorders in patients with mental disorders with regard to their treatment outcomes and adherence to therapies. In fact, patients with mental disorders often suffer from sexual dysfunctions and in many cases, pharmacological treatment causes sexual-dysfunction side-effects. However, anxiety disorders, personality disorders, eating disorders and psychotic disorders are often also characterized by sexual symptoms that have a profound impact on sexual function. The psychopathology of sexual behavior investigates deficits in the mind-body relationship that are expressed through sexual symptoms such as erectile dysfunction, premature ejaculation, vaginismus, orgasmic disorders, or lack of sexual desire. These symptoms can be considered both prodromal and as a consequence of psychological or psychiatric suffering. Written by a multidisciplinary team of experts, this book offers a valuable guide for psychiatrists, andrologists, gynecologists and psychologists.

*Narrative and Media*, first published in 2006, applies narrative theory to media texts, including film, television, radio, advertising, and print journalism. Drawing on research in structuralist and post-structuralist theory, as well as functional grammar and image analysis, the book explains the narrative techniques which shape media texts and offers interpretive tools for analysing meaning and ideology. Each section looks at particular media forms and shows how elements such as chronology, character, and focalization are realized in specific texts. As the boundaries between entertainment and information in the mass media continue to dissolve, understanding the ways in which modes of story-telling are seamlessly transferred from one medium to another, and the ideological implications of these strategies, is an essential aspect of media studies.

In *Colonial Lives of Property* Brenna Bhandar examines how modern property law contributes to the formation of racial subjects in settler colonies and to the development of racial capitalism. Examining both historical cases and ongoing processes of settler colonialism in Canada, Australia, and Israel and Palestine, Bhandar shows how the colonial appropriation of indigenous lands depends upon ideologies of European racial superiority as well as upon legal narratives that equate civilized life with English concepts of property. In this way, property law legitimates and rationalizes settler colonial practices while it racializes those deemed unfit to own property. The solution to these enduring racial and economic inequities, Bhandar demonstrates, requires developing a new political imaginary of property in which freedom is connected to shared practices of use and community rather than individual possession.
