The Bloomsbury Handbook of Popular Music Education

Bloomsbury Publishing USA

The first biography of an American master The Songs We Know Best, the first comprehensive biography of the early life of John Ashbery—the winner of nearly every major American literary award—reveals the unusual ways he drew on the details of his youth to populate the poems that made him one of the most original and unpredictable forces of the last century in arts and letters. Drawing on unpublished correspondence, juvenilia, and childhood diaries as well as more than one hundred hours of conversation with the poet, Karin Roffman offers an insightful portrayal of Ashbery during the twenty-eight years that led up to his stunning debut, *Some Trees*, chosen by W. H. Auden for the 1955 Yale Younger Poets Prize. Roffman shows how Ashbery's poetry arose from his early lessons both on the family farm and in 1950s New York City—a bohemian existence that teemed with artistic fervor and radical innovations inspired by Dada and surrealism as well as lifelong friendships with painters and writers such as Frank O'Hara, Jane Freilicher, Nell Blaine, Kenneth Koch, James Schuyler, and Willem de Kooning. Ashbery has a reputation for being enigmatic and playfully elusive, but Roffman's biography reveals his deft mining of his early life for the flint and tinder from which his provocative later poems grew, producing a body of work that he calls “the

experience of experience,” an intertwining of life and art in extraordinarily intimate ways.

An extract from the book: "We're at something of a watershed in pop history. There's never been so much music readily available, both ancient and cutting – edge modern, and we're consuming it in more ways than ever. But what place is there for albums in a world where fans can simply cherry – pick their favourite tunes and forget the rest? Is it simply the artists' love of the album that keeps it alive? And have we seen the last of the seismic currents that reshape pop into something strange and new? Some might say that new music is too heavily in debt to old music to be truly original: to paraphrase one of the Eighties' most

endearing left – field acts, Did Pop Eat Itself? Whatever the truth, it seems like an excellent time to look back on the ground we've covered since rock'n'roll's infancy. From Christmas novelties to the blackest of metal, timeless soundtracks to music's on – off relationship with the Grim Reaper, this quiz book is a celebration of pop's diversity, eccentricity and downright oddness. Within these pages, you'll find brain – teasers on some 70 years of music – making, including sections on major artists and genres, best – selling releases, highly dubious rock – star behaviour, foot – in – mouth disease and the urban legends that we dearly hope are true. Hopefully, it'll feel like a good maze – offering easy progress one moment and head – scratching dead ends the next. So dive in! And if these 62 quizzes inspire you to broaden your own musical radar, all the better."
