"Adam Rapp's brilliant and haunting story will break your heart. But then his words will mend it. . . . Absolutely unforgettable." – Michael Cart On the run in a stolen car with a kidnapped baby in tow, Custis, Curl, and Boobie are three young people with deeply troubled pasts and bleak futures. As they struggle to find a new life for

themselves, it becomes painfully clear that none of them will ever be able to leave the past behind. Yet for one, redemption is waiting in the unlikeliest of places. With the raw language of the street and lyrical, stream-of-consciousness prose, Adam Rapp hurtles the reader into a world of lost children, a world that is not for the faint of heart. Gripping, disturbing, and starkly illuminating, his hypnotic narration captures the voices of two damaged souls - a third speaks only through drawings - to tell a story of alienation, deprivation, and ultimately, the saving power of compassion.

One day John Freyer decided to sell everything he owned on the internet. He invited his friends over to tag all the possessions in his apartment, and he systematically put them up for sale on eBay. An unopened box of taco shells, half a bottle of mouthwash, almost all of his clothes, his records, his sideburns (in a plastic bag), his family's Christmas presents (not yet given), furniture- John didn't let sentiment or utility stand in his way. Soon his belongings were sold all over the world, with a bag of Porky's BBQ Pork Skins making its way to Japan, and a chair ending up in the Museum of Modern Art. With almost all the objects in his life now gone, he started the second phase of his journey- to visit his onetime possessions in their new homes.

Identifying 'permissive populism', the trickle down of permissiveness into mass consumption, as a key feature of the 1970s, Leon Hunt considers the values of an ostensibly 'bad' decade and analyses the implications of the 1970s for issues of taste and cultural capital. Hunt explores how the British cultural landscape of the 1970s coincided with moral panics, the troubled Heath government, the three day week and the fragmentation of British society by nationalism, class conflict, race, gender and sexuality.

An army veteran with deep expertise in military and international affairs makes his fiction debut with this electrifying international thriller—the first volume in a blistering hot series in the tradition of Brad Thor, Tom Clancy, and Daniel Silva. In Shadow War, an elite American mercenary on a secret mission to save a businessman's family in Eastern Europe must navigate perilous setbacks and deadly enemies that threaten to tip the balance of power between Russia and the United States. Tom Locke is an elite warrior working for Apollo Outcomes, one of the world's most successful private contracting firms. Pulled out of a mission in Libya, he is tapped for an unusual and risky assignment: a top secret black op in Ukraine. He is given one week to rescue an oligarch's family and pull off a spectacular assault that could have long-lasting repercussions for this imperiled Eastern European nation and the world. What Locke doesn't know is that the operation comes with a dangerous complication: Brad Winters. Locke's ambitious and enigmatic boss is engaged in a secretive, high-stakes geopolitical chess game with several influential powerbrokers in capitals around the world. One misstep could cost him—and Locke—everything. While Locke has methodically planned the mission and hand-picked a team of trusted operatives to pull it off—and save his ass if things go south—he doesn't count on running into a former love, war correspondent Alie MacFarlane, who impulsively makes a move that risks both their lives. Locke is an intelligent, iconoclastic soldier who specializes in pulling off the impossible. But all his brilliant preparation can't prevent the kind of backstabbing and deception that could lead to catastrophe . . . and tip the balance of power toward Putin's Russia.

"Simply put, Michael Dorf is a true hustler. When the internet upended the music business, he wasn't

romantic to the way things were done and like any great entrepreneur, focused on what's happening today. It has been fun for me to watch Michael operate in this ever-changing world. There is a lot that can be learned from this man." —Gary Vaynerchuk, Founder and CEO, VaynerMedia; and author, Crushing It As founder of the iconic Knitting Factory music venue in New York, Michael Dorf became one of the earliest pioneers of digital music in the 1990s and found himself addicted to the seductive promise of the Internet. But losing everything in the dot-com bust led to a renewed appreciation for the sensory pleasures of life and inspired him to gamble big with his latest crazy idea: Launching a wine-making facility in the middle of Manhattan for patrons who could also have dinner in a cozy three-hundred-seat venue while watching concerts by artists such as Elvis Costello, Steve Earle, Suzanne Vega, and Esperanza Spalding. After surviving another economic cataclysm—the Great Recession of 2008—Dorf found that his City Winery concept worked beautifully and he expanded it into a national network of clubs that continues to grow rapidly. Along the way, he realized why his venues are sold out nearly every night, from Boston to Nashville: Trapped in a digital bubble, increasingly separate from the real world, people are eager for the visceral, sensory experiences he offers. In Indulge Your Senses: Scaling Intimacy in a Digital World, Dorf tells riveting tales from his wild ride through three decades of business escapades and dispenses invaluable wisdom for readers—entrepreneurs, executives, students, professionals, lovers of music and wine—who are struggling to balance the virtual and the real in a world awash in technology. "Music, wine, food, and community—not only has Michael Dorf cracked the code on a recipe so many of us crave most in an increasingly disconnected world, he's also managed to grow a brilliantly successful business while listening to his gut and sticking to his values. It's a feat that all entrepreneurs would be wise to study closely." —Danny Meyer, CEO, Union Square Hospitality Group; Founder, Shake Shack; and author, Setting the Table: The Transforming Power of Hospitality in Business "The lessons learned in Michael Dorf's fascinating career make this as much a business book about how to thrive by indulging a customer's senses in our digital age as it is a gripping tale from an insider in the New York rock and jazz world during a period of massive technological change." —Steve Case, co-founder of the investment firm Revolution LLC and former CEO of AOL "Sonic Youth, Beck, John Zorn, Cecil Taylor—Michael Dorf showcased them all at his cutting-edge Knitting Factory. Neil Young, Aaron Neville, Macy Gray, Shawn Colvin—those artists and more have graced his upscale City Winery. It's hard to imagine anyone in New York who has presented more great live music over the past thirty years. This book is the colorful story of how Dorf pulled it off, both before and after the Internet upended the music industry and changed our lives forever. It's inspiring reading for anybody who cares about music, culture, and wine, and explains how to thrive by offering people a live experience they will always remember." —Rita Houston, WFUV Program Director
