The International Harvester Company (IHC) has been building its own proprietary truck engines since the introduction of their first truck in 1907. International tended to use proprietary diesel

engines. In the 1970s, IHC built the DVT 573 V-8 diesel of 240 and 260 hp (179 and 194 kW) but these were not highly regarded and relatively few were sold.

The International Harvester
DT-239 engine is a four-
stroke, four-cylinder diesel
engine, produced by
International Harvester. It
is a wet-sleeve engine
meaning that the cylinder
liners are in direct contact
with the water jacket.
There is also a D-239
engine that is identical
other than the DT series
having a turbocharger.
