[User manual VIZIO D50-F1 \(52 pages\)](#)
The D50 looks fine at ISO 1,600 if you need it. I'd much rather have a slightly grainy but sharp image than a less grainy but blurry one. Unlike film, the D50 looks great at high ISOs, so I use them anytime I need them. I would love to use ISO AUTO, but usually don't because it also remains active in Manual exposure mode.
