This open access book, inspired by the ICME 13 Thematic Afternoon on "European Didactic Traditions", takes readers on a journey with mathematics education researchers, developers and educators in eighteen countries, who reflect on their experiences with Realistic Mathematics Education (RME), the domain-specific instruction theory for mathematics education developed in the Netherlands since the late 1960s. Authors from outside the Netherlands discuss what aspects of RME appeal to them, their criticisms of RME and their past and current RME-based projects. It is clear that a particular approach to mathematics education cannot simply be transplanted to another country. As such, in eighteen chapters the authors describe how they have adapted RME to their individual circumstances and view on mathematics education, and tell their personal stories about how RME has influenced their thinking on mathematics education.

Alan Lawrence Sitomer writes a compelling story of piecing together a life after a devastating loss--when the threat of violence lurks at every step. When Teddy Anderson's little sister Tina is gunned down randomly in a drive-by shooting, the gangstas who rule the streets in the Anderson family's rapidly deteriorating neighborhood dismiss the incident as just another case of wrong place, wrong time. According to gangsta logic, Tina doesn't even count as a statistic. After his elaborately laid plans for revenge against his sister's killer are foiled by the cops, Teddy soon finds himself in and then out of prison on house arrest, into the hands of Officer Mariana Diaz, the smart, tough probation officer assigned to oversee his endless hours of community service. As part of the innovative rehabilitation program Diaz runs, Teddy is assigned to tutor Micah, a twelve-year-old orphan and would-be gansta. As Teddy goes through the motions of complying with the terms of his probation, Diaz has no idea that he is using his genius-level computer hacker skills to plot his final vengeance and to defraud the state education system of hundreds of thousands of dollars. But even though Teddy thinks he knows it all, he fails to see how Micah's desperate need for love and trust just might have the power not only to pierce all Teddy's defenses, but to save his family.
