This book highlights the sustainability aspects of additive manufacturing (AM) in two separate volumes. It describes the

details of this technology and its implications on the entire product life cycle sustainability, as well as embedded carbon and the further research needed to move this technology towards sustainable, mainstream production. Sustainability is not new for any area of industry, including additive manufacturing, and there are currently a number of ongoing research projects, both in industry and in academic institutions, that are investigating

sustainability, embedded carbon and research activities which would need to be done in the future to move this technology towards sustainable mainstream production.

It is happening because disaffected liberals have deliberately

set out to upend our Judeo-Christian traditions. Indeed, they are determined to tear down the traditional norms, values, and institutions that have been part of American society from its founding. The cultural debris that these saboteurs have created will take decades to clean up. In feisty prose Donohue explores our nation where a college student is threatened with expulsion because she prayed on campus, a civil

a statue of Jesus found on the ocean floor and a housewife sues a school district to stop the singing of Rudolph The Red-nosed Reindeer at a school choral production. These are just a few examples cited that demonstrate a culture descending into madness. Donohue takes no prisoners as he digs out and exposes the groups behind this all-out attack on our Christian traditions. Among these are the

proponents of multiculturalism, the sexual libertines, the Hollywood elite with their not-so-hidden agenda and lawyers who collaborate for profit.

Biology 12 Motorbooks Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really

need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old

yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never

imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately

craves.
