skills, applying information and data, and connecting what they have learned. Watch students build confidence as they learn about location, place, human-environment interaction, movement, and regions with these quick independent learning activities. Parents appreciate the teacher-approved activity books that keep their child engaged and learning. Great for homeschooling, to reinforce learning at school, or prevent learning loss over summer. Teachers rely on the daily practice workbooks to save them valuable time. The ready to implement activities are perfect for daily morning review or homework. The activities can also be used for intervention skill building to address learning gaps.

Studies in World History Volume 1 (Teacher Guide) Teacher Created Materials

Supplement your social studies

curriculum with 180 days of daily geography practice! This essential classroom resource provides teachers with weekly geography units that build students' geography knowledge, and are easy to incorporate into the classroom. In a world that is becoming more connected and globalized, 21st century students must have the skills necessary to understand their world and how geography affects them and others. Students will develop their map and spatial skills, learn how to answer text- and photo-dependent questions, and study the 5 themes of geography. Each week covers a particular topic and introduces students to a new place or type of map. The first two weeks consist of a mini-unit that focuses entirely on map skills. For additional units, students

will study various places, and how culture and geography are related. With a focus on US states, students will explore various types of maps including physical maps, political maps, topographic maps, thematic maps, climate maps, and various topics including scale, legends, cardinal directions, latitude and longitude, and more. Aligned to state standards and National Geography Standards, this resource includes digital materials.
