Lady Diana Cooper was an aristocrat, a socialite, an actress of stage and early screen. When she married rising political star Duff Cooper, they became the golden couple who knew everyone who was anyone; they sat at the very heart of British public life. Diana's letters to her only son, John Julius Norwich, cover the period 1939 to 1952. They take us from the rumblings of war, through the Blitz, which the Coopers spent holed up in the Dorchester (because it was newer, and therefore less vulnerable, than the Ritz), to rural Sussex where we see Diana blissfully setting up a smallholding as part of the war effort. After a spell with the Free French in Algiers, Duff was appointed British Ambassador to France and the couple settled into the glorious embassy in post-Liberation Paris. Over and beyond all the glitz, Diana emerges in these letters as highly intelligent, funny, fiercely loyal: a woman who disliked extravagance, who was often cripplingly shy, who was happiest in the countryside with her cow and goats and whose greatest love and preoccupation were her husband and son. As a portrait of a time and some of history's most dramatic and important events, these letters are invaluable. But they also give us a vivid and touching portrait of the love between a mother and son, separated by war, oceans—and the constraints of the time they lived in.

Contains an all-new afterword by New York Times best-selling author Larry Correia! Welcome to Monster Hunter International. Five days after Owen Zastava Pitt pushed his insufferable boss out of a fourteenth story window, he woke up in the hospital with a scarred face, an unbelievable memory, and a job offer. It turns out that monsters are real. All the things from myth, legend, and B-movies are out there, waiting in the shadows. Officially secret, some of them are evil, and some are just hungry. On the other side are the people who kill monsters for a living. Monster Hunter International is the premier eradication company in the business. And now Owen is their newest recruit. It's actually a pretty sweet gig, except for one little problem. An ancient entity known as the Cursed One has returned to settle a centuries old vendetta. Should the Cursed One succeed, it means the end of the world, and MHI is the only thing standing in his way. With the clock ticking towards Armageddon, Owen finds himself trapped between legions of undead minions, belligerent federal agents, a cryptic ghost who has taken up residence inside his head, and the cursed family of the woman he loves. As portals to the supernatural realm that creates and animates the universe, caves have always been held sacred by the peoples of Mesoamerica. From ancient times to the present, Mesoamericans have made pilgrimages to caves for ceremonies ranging from rituals of passage to petitions for rain and a plentiful harvest. So important were caves to the pre-Hispanic peoples that they are mentioned in Maya hieroglyphic writing and portrayed in the Central Mexican and Oaxacan pictorial codices. Many ancient settlements were located in proximity to caves. This volume

gathers papers from twenty prominent Mesoamerican archaeologists, linguists, and ethnographers to present a state-of-the-art survey of ritual cave use in Mesoamerica from Pre-Columbian times to the present. Organized geographically, the book examines cave use in Central Mexico, Oaxaca, and the Maya region. Some reports present detailed site studies, while others offer new theoretical understandings of cave rituals. As a whole, the collection validates cave study as the cutting edge of scientific investigation of indigenous ritual and belief. It confirms that the indigenous religious system of Mesoamerica was and still is much more terrestrially focused that has been generally appreciated.

First published in 1886 as a "shilling shocker," Dr Jekyll and Mr Hyde takes the basic struggle between good and evil and adds to the mix bourgeois respectability, urban violence, and class conflict. The result is a tale that has taken on the force of myth in the popular imagination. This Broadview edition provides a fascinating selection of contextual material, including contemporary reviews of the novel, Stevenson's essay "A Chapter on Dreams," and excerpts from the 1887 stage version of Dr Jekyll and Mr Hyde. Also included are historical documents on criminality and degeneracy, the "Jack the Ripper" murders, and London in the 1880s. New to this second edition are an updated critical introduction and, in the appendices, writings on Victorian psychology by Thomas Carlyle, Richard Krafft-Ebing, and Henry Maudsley, among others.
