In this groundbreaking book, Scalia and Garner systematically explain all the most important principles of constitutional, statutory, and contractual interpretation in an engaging and informative style with hundreds of illustrations

from actual cases. Is a burrito a sandwich? Is a corporation entitled to personal privacy? If you trade a gun for drugs, are you using a gun in a drug transaction? The authors grapple with these and dozens of equally curious questions while explaining the most principled, lucid, and reliable techniques for deriving meaning from authoritative texts. Meanwhile, the book takes up some of the most controversial issues in modern jurisprudence. What, exactly, is textualism? Why is strict construction a bad thing? What is the true doctrine of

originalism? And which is more important: the spirit of the law, or the letter? The authors write with a well-argued point of view that is definitive yet nuanced, straightforward yet sophisticated.

Uncommon times call for uncommon wisdom. It ' s

inspiring to hear from people who've graduated from the school of hard knocks, yet kept a sense of humor. People like Twain, Voltaire, Oscar Wilde. People who've said the thing so well that we all wish we'd said it. People who've been there, done that, and refuse to sugarcoat what they've learned. People who know, as Sherry Hochman puts it, that "Every day is a gift—even if it sucks." From Kathryn and Ross Petras, curators of craziness (and surprising smarts), comes a timely collection of reassuring reality: "Why is there so much month left at the end of the money?"—John Barrymore "October. This is one of the peculiarly dangerous months to speculate in stocks in. The others

are July, January, September, April, November, May, March, June, December, August, and February." —Mark Twain "I know God will not give me anything I can't handle. I just wish he didn't trust me so much."—Mother Teresa "When one burns one's bridges, what a very nice fire it makes."—Dylan Thomas "If you think you have it tough, read history books."—Bill Maher And Voltaire: "Life is a shipwreck but we must not forget to sing in the lifeboats." Duty Random House Trade Paperbacks Between 1982 and 1989, Pelafina H. Lièvre sent her son, Johnny Truant, a series of letters from The Three Attic

Whalestoe Institute, a psychiatric facility in Ohio where she spent the final years of her life. Beautiful, heartfelt, and tragic, this correspondence reveals the powerful and deeply moving relationship between a brilliant though mentally ill mother and the precocious, gifted young son she never ceases to love. Originally contained within the monumental House of Leaves, this collection stands alone as a stunning portrait of mother and child. It is presented here along with a foreword by Walden D.

Vern—seven months pregnant and desperate to escape the strict religious compound where she was raised—flees for the shelter of the woods. There, she gives birth to twins, and plans to raise them far from the influence of the outside

world. But even in the forest, Vern is a hunted woman. Forced to fight back against the community that refuses to let her go, she unleashes incredible brutality far beyond what a person should be capable of, her body wracked by inexplicable and uncanny changes. To understand her metamorphosis and to protect her small family, Vern has to face the past, and more troublingly, the future—outside the woods. Finding the truth will mean uncovering the secrets of the compound she fled but also the violent history in America that produced it. Rivers Solomon's *Sorrowland* is a genre-bending work of Gothic fiction. Here, monsters aren't just individuals, but entire nations. It is a searing, seminal book that marks

the arrival of a bold, unignorable voice in American fiction.

A COMPENDIUM OF WISDOM

“ Just when I discovered the meaning of life, they changed it. ”

— GEORGE CARLIN
When change comes we have two options: Resist it, and lose. Or go with the flow, and grow. Which means there's really just one option—embracing change is the only path to living your true life. So laugh at it, with George Carlin. Celebrate it, like Patti Smith and David Bowie. Above all, grow with it, like Maya Angelou, Stephen Hawking, Rebecca Solnit, Rumi, and so many others. Arranged alphabetically by

subject—including Adapting, Control, Faith, Letting Go, New Beginnings, Surprises—CHANGE HAPPENS is the book that says: You can do this...as often as you need to hear it. “ Change is not merely necessary to life—it is life. ” – ALVIN TOFFLER Exciting. But often painful. Exhilarating, but unsettling. Clarifying. Bewildering. Unpredictable, and yet inevitable. And usually all of those things at the same time. Like it or not, change happens, and when it does, here is a little book that offers true support—a collection of very wise words by very changed people who know just how you feel. Trouble Harper Collins *The Divine Dance* has become a classic for fans of Richard Rohr and an important book on Christian mysticism, it provides a fresh perspective for anyone studying or teaching the trinity. The Trinity is the central doctrine of Christianity, but it is still widely considered a mystery we won't ever fully understand. Should we still try to understand it, even so? If we could, how would it transform our

relationship with God? In this stimulating and thought-provoking book, internationally recognised teacher Richard Rohr explores the nature of God and the paradoxical idea of the Holy Trinity as both three and one. With clear, surefooted wisdom, he encourages us to build on the early Christian understanding of the relationship between Father, Son and Spirit as a flow and dance - a Divine Dance - that we are invited to join in. An engaging, accessible look at the nature of God, *The Divine Dance* will challenge the way you think about the Trinity and give you a much fuller understanding

of the triune relationship that is at the heart of Christian doctrine. It will leave you with a faith that is renewed and strengthened, and show you how you can engage more deeply in your relationship with God and the world through the Trinity.

A compendium of 100 words and phrases smart people

use--even if they only kinda sorta (secretly don't) know what they mean--with pithy definitions and fascinating etymologies to solidify their meanings. Your boss makes a joke about Schrodinger's cat--which is something you've heard of but you're a little vague about what exactly happened (or didn't happen) with that cat. Or you're reading a New Yorker article that explains that "Solecism slipped into solipsism into full-blown narcissistic project." An excellent point . . . if you're sure what "solecism" means . . .

or, for that matter, "solipsism." Language gurus Ross Petras and Kathryn Petras to the rescue! In the breezy and entertaining yet informative style of their New York Times bestseller *You're Saying It Wrong*, they give you a brief rundown on words smart people should know--from the worlds of science and the arts to philosophy, and from broader topics like quantum physics and ontology to more specific ones like Plato's cave and *trompe l'oeil*. They cover the Latin phrases we hear and read (*prima facie*, *sui generis*,

and the like) as well as those that have entered our vocabularies from other languages (bildungsroman, sturm und drang). These are the words that, if you were asked directly, "What does this mean?" you might hem and haw and try to change the subject. After reading this book, you won't have to. Bold and inventive in style, City of Night is the groundbreaking

1960s novel about male prostitution. Rechy is unflinching in his portrayal of one hustling 'youngman' and his search for self-knowledge among the other denizens of his neon-lit world. As the narrator moves from Texas to Times Square and then on to the French Quarter of New Orleans, Rechy delivers a portrait of the edges of America that has lost none of its power. On his travels, the nameless narrator meets a collection of unforgettable characters, from vice cops to guilt-ridden married men eaten up by desire, to Lance O'Hara, once Hollywood's biggest star. Rechy describes this

world with candour and understanding in a prose that is highly personal and vividly descriptive.

The Whalestoe Letters Tijan From the bestselling social commentator and cultural historian comes Barbara Ehrenreich's fascinating exploration of one of

humanity's oldest traditions: the celebration of communal joy In the acclaimed Blood Rites, Barbara Ehrenreich delved into the origins of our species' attraction to war. Here, she explores the opposite impulse, one that has been so effectively suppressed that we lack even a term for it: the desire for collective joy, historically expressed in ecstatic revels of feasting, costuming, and dancing. Ehrenreich uncovers the origins of communal celebration in human biology and culture. Although sixteenth-century Europeans viewed mass festivities as foreign and "savage,"

Ehrenreich shows that they were indigenous to the West, from the ancient Greeks' worship of Dionysus to the medieval practice of Christianity as a "danced religion." Ultimately, church officials drove the festivities into the streets, the prelude to widespread reformation: Protestants criminalized carnival, Wahhabist Muslims battled ecstatic Sufism, European colonizers wiped out native dance rites. The elites' fear that such gatherings would undermine social hierarchies was justified: the festive tradition inspired French revolutionary crowds and uprisings from the

Caribbean to the American plains. Yet outbreaks of group revelry persist, as Ehrenreich shows, pointing to the 1960s rock-and-roll rebellion and the more recent "carnivalization" of sports. Original, exhilarating, and deeply optimistic, *Dancing in the Streets* concludes that we are innately social beings, impelled to share our joy and therefore able to envision, even create, a more peaceable future. "Fascinating . . . An admirably lucid, level-headed history of outbreaks of joy from Dionysus to the Grateful Dead."—Terry Eagleton, *The Nation*
