Twisted Truths AuthorHouse
The director of the famed Bodleian Libraries at Oxford narrates the global history of the willful destruction—and surprising survival—of recorded knowledge over the past three millennia. Libraries and archives have been attacked since ancient times but have been especially threatened in the modern era. Today the knowledge they

safeguard faces purposeful destruction and willful neglect; deprived of funding, libraries are fighting for their very existence. Burning the Books recounts the history that brought us to this point. Richard Ovenden describes the deliberate destruction of knowledge held in libraries and archives from ancient Alexandria to contemporary Sarajevo, from smashed Assyrian tablets in Iraq to the destroyed immigration documents of the UK Windrush generation. He examines both the motivations for these acts—political,

religious, and cultural—and the broader themes that shape this history. He also looks at attempts to prevent and mitigate attacks on knowledge, exploring the efforts of librarians and archivists to preserve information, often risking their own lives in the process. More than simply repositories for knowledge, libraries and archives inspire and inform citizens. In preserving notions of statehood recorded in such historical documents as the Declaration of Independence, libraries support the state itself. By preserving records of

citizenship and records of the rights of citizens as enshrined in legal documents such as the Magna Carta and the decisions of the US Supreme Court, they support the rule of law. In *Burning the Books*, Ovenden takes a polemical stance on the social and political importance of the conservation and protection of knowledge, challenging governments in particular, but also society as a whole, to improve public policy and funding for these essential institutions.

[Dangerous Thirst](#) Createspace Independent Publishing Platform For over five decades, Dorothy Iannone has been making exuberantly sexual and joyfully transgressive image-text works. Karen Rosenberg wrote of her in The New York Times: "High priestess, matriarch, sex goddess: the self-taught American artist Dorothy Iannone has been called all these things and more. Since the early 1960s she has been making paintings, sculptures and artist's books that advocate 'ecstatic unity,' most often achieved through lovemaking."

Beginning with the famous "An Icelandic Saga," in which Iannone narrates her journey to Iceland (where she meets Dieter Roth and leaves her husband to live with him), this singular volume traces Iannone's search for "ecstatic unity" from its carnal beginnings in her relationships with Roth and other men into its spiritual incarnation as she becomes a practicing Buddhist. Reproducing several previously unpublished or long-out-of-print works in their entirety (such as *Danger in Düsseldorf*, *The Whip*, "An Explosive Interlude"), as well as longer excerpts from rarely-seen works like *A Cookbook* and *Berlin Beauties*, this volume gives readers the chance to read her work with

sustained attention, and enjoy the sophistication of the stories she tells and the visual-textual embellishments that make them so irresistible. Associated with Fluxus through her close friendships with Emmett Williams, Robert Filliou and Ben Vautier, as well as most well-known for her relationship with Dieter Roth, Dorothy Iannone (born 1933) nevertheless has her own distinct aesthetic style and substantive concerns. Her first major museum show in the U.S. came when she was 75 in 2008 at the New Museum, shortly after her "orgasm box" titled "I Was Thinking of You" was included in the Whitney Biennial in 2006, and she has recently attained more recognition with solo shows at the

Camden Arts Centre, Palais de Tokyo and the Berlinischer Galerie.
