"It's easy to see why Parker's snappy banter and cynical eye have kept fans turning pages for 25 years . . . his wisecracks, combined with Parker's shorthand flair for scathing characterization, make for a satisfying read," said Entertainment Weekly of last year's *Hush Money*. Now Parker presents Spenser with a deceptively dangerous and

multi-layered case: Someone has been killing racehorses at stables across the south, and the Boston P.I. travels to Georgia to protect the two-year-old destined to become the next Secretariat. When Spenser is approached by Walter Clive, president of Three Fillies Stables, to find out who is threatening his horse Hugger Mugger, he can hardly say no: He's been doing pro bono work for so long his cupboards are just about bare. Disregarding the resentment of the local Georgia law enforcement, Spenser takes the case. Though Clive has hired a separate security firm, he wants someone with Spenser's experience to supervise the operation. Despite a veneer of civility, Spenser encounters tensions beneath the surface southern gentility. The case takes an even more deadly turn when the attacker claims a human victim, and Spenser must revise his impressions of the whole Three Fillies organization--and watch his own back as well. With razor-sharp dialogue, eloquently spare prose, and some of the best supporting characters to grace the printed page, Hugger Mugger is grand entertainment.

In his latest writings on the history of literacy and its importance for present understanding and future rethinking, historian Harvey J. Graff continues his critical revisions of many common ideas about literacy among scholars and others. The eight wide-ranging and diverse essays speak to each other's central concerns about the place of literacy in modern and late-modern culture and society, and its complicated historical foundations. The introduction for *Literacy Myths, Legacies, & Lessons* sets the stage for connections between the principal concerns of this book. Drawing on other aspects of his research, Graff places the chapters that follow in the context of current thinking and major concerns about literacy, and the development of both historical and interdisciplinary studies. Special emphasis falls upon the usefulness of "the literacy myth" as an important concept and subject for interdisciplinary study and understanding. Critical stock-taking of the field includes reflections on Graff's own research and writing of the last three decades and the relationships that connect interdisciplinary rethinking and the literacy myth. The collection is noteworthy for its attention to Graff's reflections on his

identification of "the literacy myth" and in developing the LiteracyStudies@OSU initiative as a model for university-wide interdisciplinary programs. The essays also deal with ordinary fears about literacy, or illiteracy, that are shared by academics and concerned citizens. The nontechnical essays will speak to both academic and nonacademic audiences across disciplines and cultural orientations. --Book Jacket.

"Daemon in the Sanctuary" explores the uncanny contradiction between the phenomenological experience of home as a site of nurture and security and the empirical reality that people are far more likely to be hurt and even killed in their own homes by their intimates, rather than at the hands of strangers. Moving from the syrupy tributes of the god of love in Plato's "Symposium" to the subject of domestic violence appears to be a giant leap, but the author shows that embroidered romantic ideas about love prepare the initiate poorly for the reality of intimate connection. Poets and philosophers who lead us to believe that love is heaven sent can leave us craving an extreme experience. We crave an earth-shaking, life-altering intrusion on our tranquility as evidence that love is real. Thus the naive initiate can easily mistake the flutter of the pulse, the

quickenings of the heart rate, the flush, the confused emotions, and the painful longing as signs of the god's gift. But these are also the signs of fear! Wendy C. Hamblet, a philosopher in the phenomenological lineage, examines the truth value of phenomenological experience, through the lens of the problem of intimate violence. If Husserl is right and phenomenological method provides the ground of all empirical truth, then what is to be made of the fundamental contradiction between the lived experience of home as a site of nurture and security and of intimates as guardians and caretakers, and the empirical fact, evident in every human society, that people are far more likely to be harmed, and even killed, in their homes or in the homes of their intimates and at the hands of those charged with their care? Hamblet carefully choreographs a dance between the two opposing 'truths' to expose how the lived sense of home, colored by ideals, can tint people's expectations about intimate connection and cloud their ability to recognize the signs of intimate abuse. This book illuminates the dangers and pitfalls of unhealthy intimacy and offers a regimen for loosening the grip of a sickened love's pathological hold.

On the English Channel Island of Guernsey, Detective Inspector Ed Moretti and his new partner, Liz Falla, investigate vicious attacks on Epicure Films. The international production company is shooting a movie based on British bad-boy author Gilbert Ensor's bestselling

novel about an Italian aristocratic family at the end of the Second World War, using fortifications from the German occupation of Guernsey as locations, and the manor house belonging to the expatriate Vannonis. When vandalism escalates into murder, Moretti must resist the attractions of Ensor's glamorous American wife, Sydney, consolidate his working relationship with Falla, and establish whether the murders on Guernsey go beyond the island. Why is the Marchesa Vannoni in Guernsey? What is the significance of the design that appears on the daggers used as murder weapons, as well as on the Vannoni family crest? And what role does the marchesas statuesque niece, Giulia, who runs the family business and is probably bisexual, really play?

Formally known as Exercises in Health Claims Examining, The Practice of Health Claims Examining, 2e, contains a simulated work program to help you experience the real life situations that a claims examiner experiences on a daily basis. This book is created for use in conjunction with ICDC

Publishing's Guide to Health Claims Examining. Some of the exercises in the simulated work portion of the book are based upon concepts learned in the Guide to Health Claims Examining (i.e., procedures for processing claims, interpretation of contracts, understanding UCR and deductibles, etc.). This book alone should not be considered a complete text for learning health claims examining. It is suggested that a trainee take a complete health claims examining course prior to using this book. The simulated work portion of this text incorporates concepts which are not taught by simple data entry, for example UCR calculations, privacy guidelines, client record keeping, correspondence, and manual completion of claims processing. This text is designed to allow the student to work through the material at their own pace.
