Nogle ligger godt gemt, men tiltrækker alligevel en række stamgæster, der nyder det traditionelle danske køkken og den autentiske atmosfære. I "De ydmyge steder" guider Allan Mylius Thomsen de indfødte københavnere såvel som turister til at finde byens små hyggelige restauranter og værtshuse, hvor man holder traditionerne i hævd, sådan som man gjorde det for hundrede år siden. Allan Mylius Thomsen (f. 1948) er dansk forfatter og byhistoriker og

har udgivet en lang række bøger om Københavns historie. Oprindeligt er Allan Mylius Thomsen uddannet manuskriptforfatter fra Filmskolen, og han har siden hen lavet radio- og tv-udsendelser samt været guide på Dyrehavsbakken og på byvandring i det historiske København.

Colchis Books  
Gambling as a betting action – wagering money or something of material value on an event with an uncertain outcome with the primary intent of winning additional money or material goods. A guide about what is gambling (with a special section for online gambling), casino games with both beatable casino games (poker, blackjack, video poker with progressive jackpot, pai gow poker, sports betting, horse racing – parimutuel, slot machines and other gambling machines) and unbeatable casino games (baccarat, craps, roulette, keno, casino war, faro, pachinko, sic bo, let it ride, 3-card poker, 4-card poker, red dog, Caribbean stud poker, etc.), and non-casino gambling games (bingo, lottery, mahjong, backgammon, bridge, etc.). Fixed-odds gambling in sports is also present in this book with horse racing, greyhound racing, football (particularly association football, American

football and rugby), golf, tennis, cricket, baseball, basketball, ice hockey, snooker, motor sports, boxing, darts, cross-country skiing and biathlon. Please, don't forget to take a look to the legality of the gambling and online gambling, as well as to the articles, warnings and links dedicated to the gambling addiction. Extreme cases of problem gambling may cross over into the realm of mental disorders.

A guide to making the most economical visit to Europe outlines itineraries and recommends the best values in places to see and do, accommodations, and restaurants from the British Isles to Turkey.

**The Television Will Be Revolutionized, Second Edition** Lindhardt og Ringhof

The notion of market power

---

is central to antitrust law. Under EU law, antitrust rules refer to appreciable restrictions of competition (Article 101(1) Treaty on the Functioning of the European Union (TFEU), ex Article 81(1) EC Treaty), the elimination of competition for a substantial part of the market (Article 101 (3) TFEU, ex Article (81(3) EC), dominant positions (Article 10 (2) TFEU, ex Article 82 EC), and substantial impediment to effective competition, in particular by creating or reinforcing a dominant position (Article 2 of the EU Merger Regulation). At first sight, only the concept of dominant position relates to market power, but it is the aim of this book to demonstrate that the other concepts are directly linked to the notion of market power. This is done by reference to the case law of

the EU Courts and the precedents of the European Commission. The author goes on to argue that for very good reasons (clarity and enforceability, among others) the rules should be interpreted in this way. Beginning with market definition, the book reviews the different rules and the different degrees of market power they incorporate. Thus it analyses the notion of 'appreciable restriction of competition' to find a moderate market power obtained by agreement among competitors to be the benchmark for the application of Article 101 TFEU, ex Article 81 EC. It moves on to the concept of dominance under Article 102 TFEU (ex Article 82 EC), which is equivalent to substantial (or significant) market power, and then focuses on the old and new tests for EU merger control.

---

Finally, it addresses the idea of elimination of competition in respect of a substantial part of the market (Article 101 (3) TFEU, ex Article 81 (3) (b) EC), in which the last two types of market power (Article 102 TFEU, ex Article 82 EC and EU Merger Regulation) converge. To exemplify this, an in-depth study of the notion of collective dominance is conducted. The book concludes that a paradigm of market power exists under the EU antitrust rules that both fits with past practice and provides for a useful framework of analysis for the general application of the rules by administrative and even more importantly judicial authorities in the Member States, under conditions of legal certainty.

Volmer Nissen blev cand.jur. i 1941 kun 22 år gammel og ansat hos Københavns Politi, hvor modstandsbevægelsen bad ham undersøge, om folk var stikkere eller ej. I givet fald blev de likvideret. Ydermere deltog Volmer Nissen i våbenedkastninger i Gribskov og våbentransporter. Meget tyder på, at hans rolle i modstandskampen er langt større end tidligere antaget. Efter befrielsen arbejdede Volmer Nissen med Edderkopsagen, der trak korrupte tråde ind i det københavnske politikorps. Som politiadvokat fik Volmer Nissen derefter sit eget undersøgelseskammer. Mord, valutasvind, pengeafpresning og sprængte pengeskabe gav travlhed ligesom sagen om de falske britiske pund fra koncentrationslejren Sachsenhausen. Som chef for København Narkotikapoliti siden 1968

---

argumenterede Nissen indædt for bedre værktøjer til bekæmpelse af narkotikahandelens bagmænd. Nye begreber som undercoveragenter og anonyme vidner blev introduceret af ham i håb om at kunne ramme engrosmorderne og ikke blot småpusherne. Man skulle ikke gå efter stofmisbrugerne, hvis liv allerede var ødelagt af hård narko.

Drama og anden form for fiktion har i mange år været noget af det mest populære på tv-skærme verden over. Ib

---

Bondebjergs bog "Elektroniske fiktioner" fra 1993 fortæller om nogle af tv-mediets vigtigste genrer, nemlig tv-føljetonen – også kendt som tv-serien. Med udgangspunkt i nogle af samtidens mest populære og skelsættende tv-serier – "Matador", "Nye tider", "Europa i flammer", "Holocaust", "Den syngende detektiv", "Heimat" og "Twin Peaks" – fortæller Ib Bondebjerg om de forskellige genrer, hvad der definerer dem, og hvad vi som seere får ud af dem ud fra et æstetisk, psykologisk og historisk perspektiv. Ib Bondebjerg (f. 1947) er professor emeritus ved Københavns Universitets Institut for Medier, Erkendelse og Formidling. Han har blandt andet skrevet bøgerne "Medier og samfund" (sammen med Ulla Bondebjerg), "Elektroniske fiktioner" samt en lang række artikler om litteratur, film, tv og radio.

ordinary Thursday morning for Arthur Dent . . . until his house gets demolished. The Earth follows shortly after to make way for a new hyperspace express route, and Arthur's best friend has just announced that he's an alien. After that, things get much, much worse. With just a towel, a small yellow fish, and a book, Arthur has to navigate through a very hostile universe in the company of a gang of unreliable aliens. Luckily the fish is quite good at languages. And the book is *The Hitchhiker's Guide to the Galaxy* . . . which helpfully has the words DON'T PANIC inscribed in large, friendly letters on its cover. Douglas Adams's mega-selling pop-culture classic sends logic into orbit, plays havoc with both time and physics, offers up pithy commentary on such things as ballpoint pens,

potted plants, and digital watches . . . and, most important, reveals the ultimate answer to life, the universe, and everything. Now, if you could only figure out the question. . . .

### **EU Competition Law and Liberal Professions: an Uneasy Relationship?**

Penguin

The landscape of European competition law has seen significant changes in the past decade, both in terms of enforcement and substantive application.

One of the last frontiers to be subjected to scrutiny has been Article 82. In recent years the European Commission has pushed forward the debate on the nature and scope of Article 82. Of major significance to this debate were the Commission's Consultation Paper on an economic approach to Article 82, the Discussion Paper on the

---

application of Article 82 to exclusionary abuses, and the Commission's recent Guidance on its enforcement priorities in applying Article 82. The debate over the realm of Article 82 EC has raised important questions as to its past and present application. This collection of essays by international experts explores the changing boundaries of Article 82 EC and considers its recent evolution. The chapters cover a range of subjects, including the legal and economic implications of an effects-based approach to Article 82 EC, the recent Commission Guidance on Article 82 EC, the interface between intellectual property rights and competition law, licensing, tying, excessive pricing, and the protection of the consumer interest.
