The pace and storytelling style of Dark Force Rising makes Heir to the Empire feel more like a really long prologue that is needed for all of the exposition preceding this book. Each new character that was introduced from the first novel is further developed here and the overall plot moves forward a bit more.

Dark Force Rising, the sequel to Heir to the Empire, continues the new Star Wars saga. The action of this book centers around the titular Dark Force, the Katana fleet, a group of two hundred capital ships that were lost in the blackness of space when their crews all went insane simultaneously (due to a hive virus).
