Fifth Edition of major steps in
Database setting up a

database for a particular enterprise are:

- Define the high level requirements of the enterprise (this step generates a document known as the system requirements specification.)

- Define a model containing all appropriate types of data and data relationships.

Database System Concepts - Wikipedia

Database System Concepts. It is often called the sailboat book, because its

first edition had on its cover a number of sailboats, labelled with the names of various database models. The boats are sailing from a desert island towards a tropical island, while the wind pushes them away and prevents their arrival.
