care are known to reflect access to care and other issues that arise from differing socioeconomic conditions. There is, however, increasing evidence that even after such differences are accounted for, race and ethnicity remain significant predictors of the quality of health care received. In Unequal Treatment, a panel of experts	documents this evidence and explores how persons of color experience the health care environment. The book examines how disparities in treatment may arise in health care systems and looks at aspects of the clinical encounter that may contribute to such disparities. Patients' and providers' attitudes, expectations, and behavior are analyzed. How to	intervene? Unequal Treatment offers recommendations for improvements in the medical care financing, allocation of care, availability of language translation, community-based care, and other arenas. The committee highlights the potential of cross-cultural education to improve provider-patient communication and offers a detailed look at how to

integrate cross-cultural learning within the health professions. The book concludes with recommendations for data collection and research initiatives. Unequal Treatment will be vitally important to health care policymakers, administrators, providers, educators, and students as well as advocates for people of color. How to Be Richer, Smarter, and Better-Looking Than Your

Parents Ramsey Press
Work isn't supposed to be a four-letter word! Does the work you do matter to you? Are you unsure what you want to do for a living? Are you in the right place but looking to advance? No matter where you are in your career, you were born to do work you love. National bestselling author and career expert Ken Coleman was stuck in an unfulfilling career until he realized he didn't have to be. In his latest book, he draws on what he learned from his own ten-year journey as well as from coaching thousands of others to walk you through the

seven stages to discovering and doing meaningful work. Relevant to any job or industry, you'll learn step-by-step how to: Get Clear on the work you were uniquely made to do and why. Get Qualified to do the work you were created for. Get Connected with the right people who can open the doors to your dream. Get Started by overcoming the emotions and mistakes that often hold people back. Get Promoted by developing winning habits and traits. Get Your Dream Job by doing work you love and accomplishing results that matter to you. Give Yourself

Away by expanding the dream to leave a legacy. This is your moment. You are needed, and you were made to contribute. It's time to exit the daily grind and use your talents to start living your dream once and for all.

Risk: A Very Short Introduction
Pearson Higher Ed

Striking out on your own for the first time is exhilarating. But in a culture full of bad advice, predatory banks, and splurge-now-pay-later temptations, it can also be extremely dangerous—leading you to make financial decisions that could hurt you for years to come. Combine this with a slumped economy, mounds of student

loans, and dubious examples from reality TV stars to politicians to your own parents, and it's no wonder so many twenty-somethings are struggling. Twenty-three-year-old Zac Bissonnette—the author of Debt-Free U—knows exactly what you're going through. He demystifies the many traps young people fall victim to in their post-college years. He offers fresh insights on everything from job hunting to buying a car to saving for retirement that will give you a foundation for a secure, stable, and happy life. In the process, he reveals why FICO scores are overrated, online job applications are a waste of time, car loans are for suckers, and credit card rewards are a scam.

With detours to discuss wine connoisseurs, Really Broke Housewives, and Lenny Dykstra, Zac shows you how to make better choices today so you can be richer, smarter (and better-looking!) for years to come.

It's not about doing more. IT'S ABOUT DOING WHAT MATTERS. As a busy mom with three young kids and a career, #1 national bestselling author Christy Wright knows what it's like to try to do it all and be stretched too thin. After years of running on empty, she realized she had to do

something different. It wasn't just a matter of saying no to a few things. She had to figure out why she felt overwhelmed, overcommitted, and out of balance. Here's what she discovered: Life balance isn't something you do. It's something you feel. The great news is you can feel balanced — even in your busy life. In *Take Back Your Time*, Christy redefines what balance is and reveals the clear path to actually achieve it. You'll learn how to: Identify what balance looks like in your unique

situation and season. Find confidence in the choices that are right for you. Feel peace even during chaotic times. Learn how to be present for your life and actually enjoy it! You weren't created to live busy and burnt out, unhappy and unfulfilled. You shouldn't be haunted by some elusive idea of balancing it all. There's more for you right now. Today. And it starts with taking back your time the guilt-free way. Discover *Why You Handle Money the Way You Do*, and *What to Do*

The second edition of a comprehensive state-of-

the-art graduate level text on microeconomic methods, substantially revised and updated.

The second edition of this acclaimed graduate text provides a unified treatment of two methods used in contemporary econometric research, cross section and data panel methods. By focusing on assumptions that can be given behavioral content, the book

maintains an appropriate level of rigor while emphasizing intuitive thinking. The analysis covers both linear and nonlinear models, including models with dynamics and/or individual heterogeneity. In addition to general estimation frameworks (particular methods of moments and maximum likelihood), specific linear and nonlinear methods are covered in detail, including probit

and logit models and their multivariate, Tobit models, models for count data, censored and missing data schemes, causal (or treatment) effects, and duration analysis. Econometric Analysis of Cross Section and Panel Data was the first graduate econometrics text to focus on microeconomic data structures, allowing assumptions to be separated into population and sampling	assumptions. This second edition has been substantially updated and revised. Improvements include a broader class of models for missing data problems; more detailed treatment of cluster problems, an important topic for empirical researchers; expanded discussion of "generalized instrumental variables" (GIV) estimation; new coverage (based on the author's own recent	research) of inverse probability weighting; a more complete framework for estimating treatment effects with panel data, and a firmly established link between econometric approaches to nonlinear panel data and the "generalized estimating equation" literature popular in statistics and other fields. New attention is given to explaining when particular econometric methods

can be applied; the goal is not only to tell readers what does work, but why certain "obvious" procedures do not. The numerous included exercises, both theoretical and computer-based, allow the reader to extend methods covered in the text and discover new insights.	—The Washington Post Don ' t break the bank—learn to create and stick to a budget with this comprehensive, easy-to-understand guide to saving money sensibly in this edition of the popular 101 series. The central thesis of *The Christlike God* is that Jesus is the reflection in human life of the being of God. John Taylor begins by pointing out how few religious people- or non-religious people- ever stop and think about God, but tend to live with an unconscious stereotype. He discusses throughout the text how we acquire our idea of God, the nature of revelation experience, and the range of reflection on God both within and out-with the Christian tradition. Bishop

John Taylor was one of the twentieth century's leading Anglican missionary statesmen. An ecumenist, Africanist and theologian of international repute, he served as a General Secretary of the Church Missionary Society at a crucial stage in its development and later became Bishop of Windsor.
