When Dave Ramsey was experiencing his own "total money makeover," he found that journaling was very helpful and effective in allowing him to see the big picture. Dave says, "Take this journal and record everything happening that seems like a big deal. Record the relationship issues, the debt, the emotions, the setbacks, the victories, and anything else that seems important at the time." "The immediate benefits of writing everything down are twofold. First, writing helps you process the problems and victories. The second immediate benefit of journaling is that you can reread your entry just days - even months - later and gain vital perspective on your progress." Now in a bullet journal format with prompts for recording victories and setbacks, *The Total Money*

In *Love Your Life, Not Theirs*, Rachel Cruze shines a spotlight on the most damaging

money habit we have: comparing ourselves to others. Then she unpacks seven essential money habits for living the life we really want--a life in line with our values, where we can afford the things we want to buy without being buried under debt, stress, and worry. The Joneses are broke. Life looks good, but hidden beneath that glossy exterior are credit card bills, student loans, car payments, and an out-of-control mortgage. Their money situation is a mess, and they're trying to live a life they simply can't afford. So why exactly do we try so hard to keep up with the Joneses? Are we really living the lives we want, or are we chasing someone else's dream, just trying to keep up appearances on social media, at church, and in our community? Why are we letting other people set the pace for our own family's finances? In *Love Your Life, Not Theirs*, Rachel shows you how to buy and do the things that are important to you--the right way. That starts by choosing to quit the comparisons, reframing the way you think about money, and developing new habits like avoiding debt, living on a plan, watching your spending, saving for the future, having healthy conversations about money, and

---

giving. These habits work, and Rachel is living proof. Now, she wants to empower you to live the life you've always dreamed of without creating the debt, stress, and worry that are all too often part of the deal. Social media isn't real life, and trying to keep up with the Joneses will never get you anywhere. It's time to live--and love--your life, not theirs. "I've never read a book about money that takes this approach--and that's a good thing! Comparison has a way of weaving itself throughout all aspects of our lives, including our money. In *Love Your Life, Not Theirs*, Rachel Cruze outlines the seven money habits that really matter--and they have nothing to do with keeping up with the Joneses!" Candace Cameron-Bure Actress, author, and co-host of *The View* "*Love Your Life, Not Theirs* is full of the kind of practical, straightforward advice we've come to expect from Rachel Cruze. She offers guidance on paying down debt, smart saving, and the right way to talk to your spouse about money. These indispensable tips can help with day-to-day spending decisions and put you on a path to establishing healthy financial habits." Susan Spencer Editor-in-Chief for *Woman's Day* "Cruze's self-

deprecating and honest voice is a great resource for anyone wanting to take charge of their money. With humor and approachability, she helps her readers set themselves up for success and happiness, no matter what current financial state they may be in." Kimberly Williams-Paisley New York Times best-selling author of *Where the Light Gets In* "In today's world of social media, the temptation to play the comparison game is stronger than ever. *Love Your Life, Not Theirs* is the perfect reminder that, when it comes to money, comparison is a game you can't win. A terrific--and much needed--read." Jean Chatzky Financial Editor, NBC TODAY and Host of *HerMoney* with Jean Chatzky Podcast  
*The Ten Keys to Changing Your Financial Destiny* Penguin  
The book *Starting Over* is the product of consumer demand. Dave Ramsey's Debtor Education (DRDE) provides pre-discharge financial education to debtors filing Chapter 7 and 13 bankruptcy as mandated by the United States Trustee, delivered to its users by their attorneys. Many of those attorneys have asked that DRDE provide something to help discharged debtors avoid

---

the pitfalls they'll face as they leave the Bankruptcy Court's jurisdiction and their lawyers' protection and return to the real world. Starting Over begins with the moving story of the Director of Dave Ramsey's Debtor Education. He has been through the trenches and has great empathy for those who have to start over, as he did himself. This chapter reinforces the credibility of those who are offering this advice. After that the chapters are divided into several sections designed to track the debtors' progress, beginning with the days after discharge. It begins with a "To-Do List" of issues that should be addressed right away--the sooner the better--listed in more or less chronological order. Some of these may seem obvious--secure your home, don't go into debt for anything, cut up credit cards, etc.--but in truth, many people who have no history of fiscal responsibility need elementary guidance and a dose of hope in their effort to change their behaviors. The next several chapters make up what is called the "Next Steps." These are matters which will take longer, and about which one may need to do some serious planning. This includes finding a career that really fits,

setting short term and long term goals, working on the attitudes and behaviors that caused the bankruptcy, making sure you have the right insurance protection, to name a few. Finally there is a section entitled "Advice for Moving Forward." In addition to some real-life suggestions and examples from successful bankruptcy lawyers, this part deals with major decisions such as renting versus buying, what to do about an upside-down car or home, the arguments against cosigning, and--hopefully unnecessary--dealing with collectors and creditors.

**The Simplified Beginner's Guide to Eliminating Financial Stress, Building Wealth, and Achieving Financial Freedom** Thomas Nelson Inc

Wall Street Journal best-selling author Jon Acuff reveals the steps to getting unstuck and back onto the path of being awesome. Over the last 100 years, the road to success for most everyone has been divided into five stages that mirror the decades of working life: Your 20s are a period of Learning. This is the decade of trying a thousand things, exploring a multitude of interests, and discovering what really motivates you. Your 30s are a period of Editing. This is the decade of sorting out interests, where you discover what you really care about and who you really are. Your 40s are a period of Mastering. This is the decade of narrowing focus, honing skill sets, and becoming an expert in your field. Your 50s are a period of Harvesting. This is the decade of reaping the benefits of good decisions and enjoying the highest income-earning period in a career. Your 60s are a period of Guiding. This is the decade of mentoring, training, and encouraging others on their own road to success. Every successful person has followed these steps regardless of their occupation. But three things have changed the path to success and erased the decades associated with them: Finish lines are dead - Boomers are realizing that a lot of the things they were promised aren't going to materialize, and they have started second and third careers. Anyone can play - Technology has given

access to an unprecedented number of people who are building online empires and changing their lives in ways that would have been impossible years ago. Hope is boss - The days of "success first, significance later," have ended. A new generation doesn't want to change the world eventually; they want to change it now through the wells they kickstart in Africa and the TOMS they wear on their feet. The value system has been flipped upside down. The result is that you've got an entire generation pushing down to start over, another generation pushing up to start for the first time, and in the middle of this collision, the tools to actually change the world. Experience years now trump chronological age. And while none of the five stages can be skipped, they can be shortened and accelerated. There are only two paths in life: average and awesome. The average path is easy because all you have to do is nothing. The awesome path is more challenging, because things like fear only bother you when you do work that matters. The good news is Start gives readers practical, honest, actionable insights to be more awesome, more often. It's time to punch fear in the face, escape average, and do work that matters. It's time to Start.

*Punch Fear in the Face, Escape Average, and Do Work That Matters* Dave Ramsey's Complete Guide to Money In his first bestseller, *Financial Peace*, Dave Ramsey taught us how to eliminate debt from our lives. What does the Bible really say about money? About wealth? How much does God expect you to give to others? How does wealth affect your friendships, marriage, and children? How much is "enough"? There's a lot of bad information in our culture today about wealth and the wealthy. Worse, there's a growing backlash in America against our most successful citizens, but why? To many,

---

wealth is seen as the natural result of hard work and wise money management. To others, wealth is viewed as the ultimate, inexcusable sin. This has left many godly men and women confused about what to do with the resources God's put in their care. They were able to build wealth using God's ways of handling money, but then they are left feeling guilty about it. Is this what God had in mind?

In *Dumping Debt*, Dave blows the lid off the credit game, debunking the leading myths about debt that have become ingrained in our natural way of thinking. Then he walks you right out of debt with his simple, clear and effective debt snowball technique.
