Fleet Owner

196 pages, with more than 400
illustrations and charts,
plus 77 wiring diagrams, size
8.25 x 10.75 inches. This
manual is a 'must have' for
any owner of a 1950 through
1969 motorcycle, scooter or
moped equipped with a Wipac
electrical system. Wipac
issued two ring-bound
versions of this manual. The
first was titled 'Number 3

Manual' and the second 'Motorcycle & Scooter Manual' but unfortunately, the publication dates of the individual pages were not identified. However, based on the contents, we can estimate that they were published in 1964 and 1969 approximately. The later manual contains considerably more information plus numerous updates to the data in the earlier manual. Unfortunately, some of the information from the earlier manual was also omitted from the later manual as it was probably considered to be

outdated. However, as that outdated information is of significant interest to today's owners and restorers, we have combined the entire data from both manuals into a single publication. Please note, that wherever the earlier data had been updated, we have only included the latest update in order to prevent duplication of information. This 'combination' manual includes alternator and generator testing and servicing instructions, spare parts illustrations and part numbers

plus Technical Data Sheets and the major Wipac electrical Service Bulletins that provide components utilized by the additional information due to various manufacturers listed model updates and/or above. Out-of-print and electronic equipment unavailable for many years, modifications. It also these manuals are extremely includes wiring diagrams by difficult to find on the individual model type secondary market and we are including: A.J.S., Ariel, pleased to be able to offer B.S.A., Dayton, Dunkley, this combined reproduction as Excelsior, Francis-Barnett, a service to all owners, James, Matchless, Norton, restorers and enthusiasts of Piatti, Raleigh (mopeds) and 1950-1969 Wipac equipped Triumph. The entire content of motorcycles, scooters and this publication is devoted to mopeds. Wiring diagrams that the operation, testing, are included - by manufacturer servicing, maintenance, and model type: A.J.S. - Model overhaul and adjustment of all 14, 14S, 14CS, 14CSR & Model

8. ARIEL - Colt & Pixie.
