With a critical eye aimed at earlier accounts of Constantine's life, the author aims to provide the most comprehensive, authoritative and readable account of the Roman emperor's extraordinary life.

Cracking the AP World History Exam, 2017 Edition
Princeton Review

"The best thing about this book is its overarching

thesis, the concept of a Columbian exchange. This provocative device permits Crosby to shape a lot of familiar and seemingly unrelated data into a fresh synthesis. . . . The implications of this interplay between novel biological and social forces are fascinating." *Journal of American History*.

Reading Like a Historian Good Press

In 1517, the Ottoman Sultan Selim "the Grim" conquered Egypt and brought his empire for the first time in history into direct contact with the trading world of the Indian Ocean. During the decades that followed, the Ottomans became progressively more engaged in the affairs of this vast and previously unfamiliar region, eventually to the point of launching a systematic ideological, military and commercial challenge to the Portuguese Empire, their main rival for control of the lucrative trade routes of maritime Asia. The Ottoman Age of Exploration is the first comprehensive historical account of this century-long struggle for global dominance, a struggle that raged from the shores of the Mediterranean to the Straits of Malacca, and from the interior of Africa to the steppes of Central Asia. Based on extensive research in the archives of Turkey and Portugal, as well as materials written on three continents and in a half dozen languages, it presents an unprecedented picture of the global reach of the Ottoman state during the sixteenth century. It does so through a dramatic recounting of the lives of sultans and viziers, spies, corsairs, soldiers-of-fortune, and women from the imperial harem. Challenging traditional narratives of Western dominance, it argues that the Ottomans were

not only active participants in the Age of Exploration, but ultimately bested the Portuguese in the game of global politics by using sea power, dynastic prestige, and commercial savoir faire to create their own imperial dominion throughout the Indian Ocean.

The Cabin Faced West McDougal Littell/Houghton Mifflin

the test • Tips for pacing yourself and guessing logically • Essential tactics to help you work smarter, not harder

The Columbian Exchange Columbia University Press
2011 Reprint of the 1920 Edition. Illustrated by Cosgrove. Full facsimile of the original edition, not reproduced with Optical Recognition Software. This is the actual log of Christopher Columbus as copied out by his companion, Bartholomew Las Casas. Besides being authentic source material about the voyage and the core of the Columbus legend, this journal has all the day-by-day enchantment of a long sea voyage with all the drama of a small ship steering into the unknown—the first pelican, a crab in the seaweed, a branch of roseberries and a carved log found floating in the water, mutterings of mutiny and the constant watch for signs of land. John Cosgrove, the illustrator, adds to the book on every page with pictures of whales and riggings, compasses and charts, which are both decorative and accurate pictorial footnotes to the log.

A History of Western Society, Volume 1 ASCD
Ann Hamilton's family has moved to the western frontier of Pennsylvania, and she misses her old home in Gettysburg. There are no girls her age on Hamilton Hill, and life is hard. But when the Hamiltons survive a terrible storm and receive a surprise visit from George Washington, Ann realizes that pioneer life is exciting and special.

Personal Narrative of the First Voyage of Columbus to America Princeton Review

On 8 March 1421, the largest fleet the world had ever seen set sail from China. The ships, some nearly five hundred feet long, were under the command of Emperor Zhu Di's loyal eunuch admirals. Their mission was 'to proceed all the way to the end of the earth to collect tribute from the barbarians beyond the seas' and unite the world in Confucian harmony. Their journey would last for over two years and take them around the globe but by the time they returned home, China was beginning its long, self-imposed isolation from the world it had so recently embraced. And so the great ships were left to rot and the records of their journey were destroyed. And with them, the knowledge that the Chinese had circumnavigated the globe a century before Magellan, reached America seventy years before Columbus, and Australia three hundred and fifty years before Cook... The result of fifteen years research, 1421 is Gavin Menzies' enthralling account of the voyage of the Chinese fleet, the remarkable discoveries he made and the persuasive evidence to support them: ancient maps, precise navigational knowledge, astronomy and the surviving accounts of Chinese explorers and the later European navigators as well as the traces the fleet left behind - from sunken junks to the votive offerings left by the Chinese sailors wherever they landed, giving thanks to Shao Lin, goddess of the sea. Already hailed as a classic, this is the story of an extraordinary journey of discovery that not only radically alters our understanding of world exploration but also rewrites history itself.
