BiSL establishes a bridge between IT and business processes, and between business information administrators and information managers. The BiSL process model provides an insight into all of the primary processes within their field of operations and into the relationship between the various processes. It offers a starting point for the improvement of these processes using best practices, amongst other things, and it provides uniform terminology. This book explains BiSL, a process framework for business information management, encompassing the best way to manage and execute business information management in day-to-day practice, and explains how the framework BiSL can help to improve business processes and the alignment of business and IT. The bracing and inventive new novel of suspicions and secrecy from Herman Koch, the New York Times bestselling author of *The Dinner* When Robert Walter, popular mayor of Amsterdam, sees his wife toss her head back with laughter while chatting to one of his aldermen at a New Year's reception, he immediately suspects the worst. Despite their long and happy marriage, Robert is convinced that Sylvia is cheating on him—with the respectable alderman who is dedicated to the environment, no less. The man who wants to spoil the capital's skyline with wind turbines. The New Year's reception marks the end of the "happy family" era that the mayor has enjoyed for so long. His wife and their

daughter, Diana, however, are not aware of his suspicions and carry on as usual. Robert starts spending a lot of time and energy "behaving normally." Naturally, his normal behavior is far more suspicious. Normally Robert's not really present when he's at home—he's preoccupied with his phone, the newspapers, and his own thoughts. But now Robert is so sure he'll miss the clues if he doesn't pay attention that he starts to be almost alarmingly attentive and interested—ultimately losing himself in increasingly panicked and paranoid trains of thought. Written with Herman Koch's trademark originality, playfulness, and edge, *The Ditch* is a wildly clever—and guttingly familiar—story of a man whose sadistic skill for undermining himself and his marriage comes to cost him nearly everything. Praise for *The Ditch* "Provocation, life in the spotlight and tasty cuisine are also present and accounted for in Koch's spiky new book, *The Ditch*. . . . Koch again seeks to show the fault lines beneath the surface of ostensibly civilized society." —The New York Times Book Review "Clever, rollicking, and intense . . . an unreliable tale for the ages." —Vanity Fair "Koch has crafted a pitch-perfect tone for a man consumed by jealousy. . . . A shadowy tale of the power of projection." —Kirkus Reviews "A compelling exploration by a master stylist of what jealousy and distrust can do even to a solid relationship." —Booklist

The Hidden Force (A Story of Modern Java), (Dutch: *De Stille Kracht*), is a novel by Dutch novelist and poet Louis Marie-Anne Couperus and was originally published in English in 1922, as translated by Alexander Teixeira de Mattos. The work is a story set on the island of Java in the Dutch East Indies, where the author Couperus was raised, telling the story of Van Oudijk the commissioner of an area of East Java, who quells a rebellion through his deft verbal skills. The commissioner is however wholly oblivious to the supernatural "hidden forces" on the island, and the tensions within his own household, both of which plague him throughout the work. *The Hidden Force* tells the story of Javanese-Dutch politics, urban life, colonial bureaucracy, and supernatural forces on a foreign island, which was later adapted into a Dutch TV series in the 1970s, and has been marked for adaptation by renowned director Paul Verhoeven.

Om nog maar te zwijgen van het bereiken van de veertigjarige leeftijd en wat dat voor impact heeft op lijf en leven.
