The bracing and
inventive new novel
of suspicions and
secrecy from Herman
Koch, the New York
Times bestselling
author of The Dinner
When Robert Walter,
popular mayor of

Amsterdam, sees his wife toss her head back with laughter while chatting to one of his aldermen at a New Year's reception, he immediately suspects the worst. Despite their long and happy marriage, Robert is convinced that Sylvia is cheating on him—with the respectable alderman who is dedicated to the environment, no less. The man who wants to spoil the capital's	skyline with wind turbines. The New Year's reception marks the end of the "happy family" era that the mayor has enjoyed for so long. His wife and their daughter, Diana, however, are not aware of his suspicions and carry on as usual. Robert starts spending a lot of time and energy "behaving normally." Naturally, his normal behavior is far more suspicious. Normally	Robert's not really present when he's at home—he's preoccupied with his phone, the newspapers, and his own thoughts. But now Robert is so sure he'll miss the clues if he doesn't pay attention that he starts to be almost alarmingly attentive and interested—ultimately losing himself in increasingly panicked and paranoid trains of thought. and her quest for self-determination in 17th-century Persia. In 17th-century Iran, a 14-year-old woman believes she will be married within the year. But when her beloved father dies, she and her mother find themselves alone and without a dowry. With nowhere else to go, they are forced to sell the brilliant

turquoise rug the young woman has woven to pay for their journey to Isfahan, where they will work as servants for her uncle, a rich rug designer in the court of the legendary Shah Abbas the Great. Despite her lowly station, the young woman blossoms as a brilliant designer of carpets, a rarity in a craft

dominated by men. But while her talent flourishes, her prospects for a happy marriage grow dim. Forced into a secret marriage to a wealthy man, the young woman finds herself faced with a daunting decision: forsake her own dignity, or risk everything she has in an effort to create a new life.

Lizzie has an unfortunate knack for attracting bad luck, but this time she's hit the jackpot. Losing her heart to her boss at the radio station where she works leads directly to losing her job, and with no money in the bank she's forced to swallow her pride and return home to her parents. As if that wasn't bad enough, her mother finds her work at the local care home for the elderly, and it's there that Lizzie meets Mrs Dallimore. In her nineties, Mrs Dallimore also finds herself in a situation which she's hoped for a family reconciliation, but reluctantly coming to terms with. Old age has finally caught up with her, and with her life drawing to a close she gives in to the temptation to relive the past by sharing it with Lizzie. She tells Lizzie of the day when, as a young girl, and shortly before the outbreak of World War II, she left her home in America to cross the Atlantic to England where she hoped to meet her English grandparents for the first time. At best she hoped for a family reconciliation, but before long her visit turned into so much more. As Lizzie listens to Mrs Dallimore's story, she begins to realize that she's not the only person to attract bad luck, or make mistakes, and maybe things aren't so bad for her after all . . .

This book describes a process framework for business information management: the Business Information Services Library (BiSL®) – a public domain standard that is consistent with the IT Infrastructure Library (ITIL) and Application Services Library (ASL). BiSL establishes a bridge between IT and business processes, and between business information administrators and

information managers. The BiSL process model provides an insight into all of the primary processes within their field of operations and into the relationship between the various processes. It offers a starting point for the improvement of these processes using best practices, amongst other things, and it provides uniform terminology. This book explains BiSL, a process

framework for business information management, encompassing the best way to manage and execute business information management in day-to-day practice, and explains how the framework BiSL can help to improve business processes and the alignment of business and IT.
